

PROFESSIONAL CERTIFICATION

Autodesk Navisworks Training

This course teaches Navisworks for BIM coordination and management. Learn clash detection quantification and 4D 5D simulation. Cover viewport markup reports and reviews. Suitable for modelers technicians coordinators and managers. Build templates for architecture structure MEP and infrastructure. Gain skills for CDE file handling and authority.

About Orbit Training Center

Your Gateway to Professional Excellence in Dubai

Who We Are

Established in 2023, Orbit Training Center is a leading professional training provider in Dubai, offering 60+ professional certification courses across diverse fields, including engineering, IT, design, and languages.

Our Benefits

-  Industry recognized certifications
-  Convenient location in the heart of Dubai
-  Affordable fees with multiple payment plans
-  Lifetime post-training support

★Our Features

-  Hands-on learning with real-world projects
-  Expert trainers with industry experience
-  Flexible learning options to fit your schedule
-  State-of-the-art infrastructure & facilities

Our Mission

We deliver outstanding courses, expert teaching, strong career guidance, and placement support to help every student achieve their best results. We stay connected with alumni through networking events, lifelong learning, and ongoing mentorship. We run our operations with smart systems and data-driven decisions to create a smooth, exceptional experience for all.

Autodesk Navisworks Course

Master Navisworks for BIM clash and coordination study.

Course Description

This course covers Navisworks tools for BIM. Perform clash detection and quantification. Simulate 4D and 5D coordination. For professionals manage viewports and reports. Learn markup and review processes. Handle architecture structure and MEP. Prepare for infrastructure management and template building.

Duration

25-35

Hours of Training

Format

Classroom / Online

Flexible Option

Key Outcomes

- ✓ Clash detection skills
- ✓ Quantification expertise
- ✓ 4D 5D simulation
- ✓ Coordination reports creation
- ✓ Markup review mastery
- ✓ Architecture structure coordination
- ✓ Infrastructure template building

Target Audience

- BIM modelers and technicians
- BIM coordinators seeking skills
- BIM managers for coordination

Certification

- Certificate of Course Completion
- Industry Recognized Certification
- Trained by Certified Professionals

Prerequisites

- Basic understanding of BIM concepts
- Experience with any design software
- Interest in clash detection tools

Autodesk Navisworks Course

Begin with Navisworks interface and BIM coordination basics.

Intermediate

- Covers all Intermediate Levels
- Precise Geometry Creation
- Basic Parameters & Standards
- Understanding of Tools & Uses
- Intermediate Project Standard
- 1 Project at Completion

Duration
25 Hrs

Professional

- Covers all Professional Modules
- 16 Standard Professional Modules
- Learn with Industry Standard
- Professional Tools and Uses
- Multiple Professional Projects
- 3 Projects at Completion

Duration
30 Hrs

Advanced (Customized)

- Covers All Professional Modules
- 16+ Advance Professional Module
- Co-Ordination and Adv. Parameters
- Shop Drawings & As Built Drawings
- Govt. Standard and Submission
- 4 Projects in Different Categories

Duration
35 Hrs

Autodesk Navisworks Course

Begin with Navisworks interface and BIM coordination basics.

01 Introduction to Navisworks Interface & Concepts

- > Explore Navisworks workspace ribbon and docking panels
- > Understand file formats: NWD NWF NWC and their workflows
- > Navigate 3D models using walk fly orbit and pan tools
- > Customize user interface options and global settings
- > Review essential BIM principles and Navisworks role

02 Project Setup and Model Aggregation

- > Create new projects and append multiple discipline models
- > Align models using shared coordinates and units adjustment
- > Manage model hierarchy in Selection Tree effectively
- > Use Merge Refresh and Reload commands for updates
- > Save viewpoints and organize model states for reuse

03 Advanced Navigation and Model Review Tools

- > Create and manage saved viewpoints and sections
- > Apply section planes clipping and hide/isolate functions
- > Measure distances angles areas and cumulative dimensions
- > Add redlines tags comments and review markup tools
- > Compare model revisions and track changes visually

04 Selection Sets Search and Filtering Techniques

- > Build selection and search sets for intelligent filtering
- > Use Selection Inspector and properties for queries
- > Apply object-level filters and appearance overrides
- > Export and reuse sets for consistent workflows
- > Leverage metadata and attributes for advanced searches

05 Clash Detection Setup and Configuration

- > Access Clash Detective and define test parameters
- > Set clash tolerances rules and composite priorities
- > Configure tests between disciplines (Arch Struct MEP)
- > Run batch clash tests and manage large model performance
- > Group classify and assign clashes for resolution

06 Clash Management Reporting and Resolution

- > Review clashes in 3D with isolation and viewpoints
- > Create assign and track clash issues systematically
- > Generate detailed clash reports in HTML XML CSV
- > Integrate with Autodesk Construction Cloud (ACC) issues
- > Establish coordination workflows and clash matrices

Autodesk Navisworks Course

Begin with Navisworks interface and BIM coordination basics.

07 TimeLiner for 4D Construction Simulation

- > Import schedules from Primavera MS Project or Excel
- > Link model elements to tasks and define appearance rules
- > Simulate construction sequences and phasing visually
- > Create 4D animations with planned vs actual comparison
- > Analyze schedule impacts and communicate timelines

08 Quantification and Material Takeoff Workflows

- > Set up Quantification Workbook and catalogs
- > Perform manual and automated model-based takeoffs
- > Create formulas resources and cost estimations
- > Generate quantity reports and export data
- > Integrate takeoff results with cost and procurement tools

09 Animator and Scripter for Interactive Animations

- > Build camera paths keyframes and motion sequences
- > Animate objects sections and model transformations
- > Use Scripter to create interactive scripts and events
- > Combine Animator with TimeLiner for dynamic simulations
- > Produce presentation-ready walkthroughs and fly-throughs

10 Rendering Visualization and Presentation Outputs

- > Apply materials lighting and environmental effects
- > Configure realistic rendering settings and styles
- > Generate high-quality still images and animations
- > Export rendered outputs for client and stakeholder review
- > Create section animations and exploded views

11 Model Coordination and Multidisciplinary Workflows

- > Federate models from Revit Tekla IFC and other formats
- > Perform regular coordination reviews and updates
- > Use copy/monitor-like tools for change propagation
- > Integrate with cloud platforms like BIM 360/ACC
- > Establish best practices for team-based coordination

12 Custom Tools Appearance Profiles and Optimization

- > Create custom search sets and appearance profiles
- > Optimize large models with culling and performance settings
- > Use batch processing for repetitive tasks
- > Customize toolbars and macros for efficiency
- > Manage model performance in complex federated files

Autodesk Navisworks Course

Begin with Navisworks interface and BIM coordination basics.

13 BIM Data Management and Industry Compliance

- › Implement LOD and Level of Information standards
- › Manage linked files revisions and audit trails
- › Ensure IFC export compliance and data validation
- › Apply Dubai Municipality BIM mandates and submission protocols
- › Archive coordinated models with compliance documentation

14 Project Coordination Clash Resolution and Quality Assurance

- › Conduct final multi-discipline clash detection cycles
- › Resolve complex clashes using advanced tools and reports
- › Integrate Navisworks with external BIM platforms
- › Audit federated models for accuracy and completeness
- › Apply quality checklists and prepare for project handover

15 Advanced Coordination and Model Review Workflows

- › Perform advanced model federation from multiple sources
- › Create and manage coordination review protocols
- › Implement version control for federated models
- › Track model changes and revision history effectively
- › Generate coordination status reports for stakeholders

16 Project Handover and Digital Asset Management

- › Prepare as-built models for facility management handover
- › Export COBie data and asset information requirements
- › Create digital twin ready deliverables for clients
- › Archive project data with complete audit trails
- › Establish protocols for long-term model maintenance

Final Projects and Assessment:

- **Assessment:** Project-based evaluation through real-world projects to assess practical skills and application without theory exams.
- **Tailored Curriculum:** Customized to industry standards, covering essential topics for professional development in relevant fields.
- **Hands-on Projects:** Real-world simulations and interactive tasks to build applicable skills and create professional portfolios.
- **Certification Prep:** Targeted review sessions, practice exercises, and strategies for achieving industry certifications.
- **Ongoing Support:** Access to recorded materials, forums, instructor guidance, and career assistance for long-term growth.

Muppuli Raja

One of great institute for REVIT BIM course. I completed my training with Mr Ahmed. He is one great trainer in this institute. He has very good knowledge for BIM Training. I completed my REVIT BIM training with orbit and it was very nice learning journey for me. And one of best thing is training center is very flexible for classes.

Arun

Best SolidWorks training in Dubai! The instructor made 3D modeling and assembly design easy to understand. The course covered all essential tools I need for product design and engineering work. Best training center for solidworks training. Best Training Center for Best Skills

Harshu CH

My experience at Orbit training center has been the best In every step I learn from there very clearly almost complete my course it's very interesting the trainer is the best professional and friendly ,and the rest of the team keep it up, thanks for supporting me Orbit and all staff...

Ranjan Axalan

I just finished my course in 3ds max. I learned a lot on how to create 3d model. Thank you for the experience and for the teaching method it help me to understand easily and grow my knowledge. I will use my learnings to my future company. Highly Recomanded!

Numan

I had good support from trainer Mr Ahmed and the other staff. They would schedule my BIM classes as per my convenience and would retake classes if I required. They always answer my calls when I need assistance. Not only that the trainer would go a mile a ahead by helping me with my work related issues like a true mentor.

Lelanie Fernandez

Overall, I highly recommend the Fusion 360 training at Orbit Center, especially with Ahmad as the instructor. This course has exceeded my expectations, and I am learning a lot. I would rate it 5 out of 5 stars!

Aman Bakhtiyar

I had a great learning experience at Orbit Training Center. The trainers are knowledgeable, supportive, and always ready to help. The clear and practical teaching methods really helped improve my skills and confidence. I highly recommend Orbit Training Center to anyone looking to learn AutoCAD, Revit, and other professional skills.

Sana Zahid -

I recently completed the online Digital Marketing course with Orbit Training Center, and it was a great experience! The lessons were clear, practical, and easy to follow. The trainers were knowledgeable and supportive throughout the course. I've learned a lot that I can apply to my work here in Belgium. Highly recommend Orbit Training Center to anyone looking to improve their digital marketing skills!

Cleavon Henderson

Orbit Training Center offers outstanding CAD classes that are easy to understand, even as a first-year mechanical engineering student. The instructors simplify complex concepts and use practical examples, making the learning process engaging and effective. Whether you're new to CAD or improving your skills, Orbit Training Center provides a supportive and enriching environment. Highly recommended!

Danish Khan

Just finished Primavera P6 training at Orbit Training Center and it was fantastic! The trainer made complex scheduling concepts easy to understand with real-world examples. Got hands-on experience with project planning, resource allocation, and progress tracking. The course was well-structured and I feel confident using Primavera P6 for my projects now. Great value and would definitely recommend to other project managers!
