

PROFESSIONAL CERTIFICATION

CostX Training

The CostX Course covers BIM-based estimating software. Learners explore 2D/3D takeoff rate building and reporting. Practical training includes model-linked quantification revision management and cost analysis for accurate project budgeting in construction.

About Orbit Training Center

Your Gateway to Professional Excellence in Dubai

Who We Are

Established in 2023, Orbit Training Center is a leading professional training provider in Dubai, offering 60+ professional certification courses across diverse fields, including engineering, IT, design, and languages.

Our Benefits

-  Industry recognized certifications
-  Convenient location in the heart of Dubai
-  Affordable fees with multiple payment plans
-  Lifetime post-training support

★Our Features

-  Hands-on learning with real-world projects
-  Expert trainers with industry experience
-  Flexible learning options to fit your schedule
-  State-of-the-art infrastructure & facilities

Our Mission

We deliver outstanding courses, expert teaching, strong career guidance, and placement support to help every student achieve their best results. We stay connected with alumni through networking events, lifelong learning, and ongoing mentorship. We run our operations with smart systems and data-driven decisions to create a smooth, exceptional experience for all.

CostX Course

It is a way to learn BIM estimating with CostX tool.

Course Description

This course teaches CostX for quantity surveyors. Master 5D BIM takeoff live-linked bills and subcontractor comparison. Projects cover cost planning value engineering and tender analysis for precise estimating in building infrastructure.

Duration

26-35

Hours of Training

Format

Classroom / Online

Flexible Option

Key Outcomes

- ✓ Master CostX interface.
- ✓ Perform 2D takeoffs.
- ✓ Use 3D BIM models.
- ✓ Build rate libraries.
- ✓ Create linked BOQs.
- ✓ Analyze cost revisions.
- ✓ Generate tender docs.

Target Audience

- Quantity Surveyors estimating.
- Tendering pros in coord.
- Project Coordinators.

Certification

- Certificate of Course Completion
- Industry Recognized Certification
- Trained by Certified Professionals

Prerequisites

- Basic QS knowledge required.
- Computer skills needed.
- Interest in BIM estimating.

CostX Course

Begin with CostX basics and 2D takeoff.

Intermediate

- Covers all Intermediate Levels
- Precise Geometry Creation
- Basic Parameters & Standards
- Understanding of Tools & Uses
- Intermediate Project Standard
- 1 Project at Completion

Duration
26 Hrs

Professional

- Covers all Professional Modules
- 16 Standard Professional Modules
- Learn with Industry Standard
- Professional Tools and Uses
- Multiple Professional Projects
- 3 Projects at Completion

Duration
31 Hrs

Advanced (Customized)

- Covers All Professional Modules
- 16+ Advance Professional Module
- Co-Ordination and Adv. Parameters
- Shop Drawings & As Built Drawings
- Govt. Standard and Submission
- 4 Projects in Different Categories

Duration
35 Hrs

CostX Course

Begin with CostX basics and 2D takeoff.

01 Introduction to RIB CostX

- > Overview of RIB CostX Software
- > Key Features and Benefits
- > Installation and Setup
- > User Interface Tour
- > Basic Navigation

02 Project Setup

- > Creating a New Project
- > Importing Existing Projects
- > Setting Up Project Parameters
- > Understanding Cost Codes and Categories
- > Project Templates

03 Estimating Basics

- > Introduction to Estimation
- > Types of Estimates Preliminary Detailed
- > Understanding Quantity Takeoff
- > Measurement Principles
- > Estimate Accuracy

04 Quantity Takeoff

- > Using the 2D Takeoff Tool
- > Working with 3D Models
- > Manual vs Automated Takeoff
- > Takeoff Customization
- > Error Checking

05 Creating and Managing Estimates

- > Customizing Measurement Templates
- > Building an Estimate from Takeoff
- > Adding Costs and Pricing
- > Understanding Labor Materials and Overheads
- > Setting Up Markups and Discounts

06 Advanced Estimating Techniques

- > Using RIB CostX for Different Types of Projects
- > Handling Complex Structures
- > Working with Multiple Scenarios and Variants
- > Integrating with Other Software Tools
- > Advanced Pricing Strategies

CostX Course

Begin with CostX basics and 2D takeoff.

07 Reporting and Analysis

- > Generating Reports from Estimates
- > Customizing Report Formats
- > Analyzing Cost Data
- > Exporting Data to Excel and Other Formats
- > Data Visualization

08 Collaboration and Sharing

- > Managing User Permissions
- > Collaborating with Team Members
- > Sharing Estimates and Reports
- > Version Control and Document Management
- > Cloud Collaboration

09 Best Practices and Tips

- > Common Pitfalls in Estimation
- > Tips for Efficient Use of RIB CostX
- > Case Studies and Real-World Applications
- > Workflow Optimization
- > Industry Standards

10 Review and Assessment

- > Review of Key Concepts
- > Practical Exercises and Assignments
- > Final Assessment
- > Certification Preparation
- > Q&A Sessions

11 BIM Integration

- > Importing BIM Models
- > Quantity Takeoff from BIM
- > Clash Detection in Estimates
- > BIM Workflow Best Practices
- > Model-Based Estimation

12 Cost Databases

- > Managing Cost Libraries
- > Updating Cost Data
- > Custom Cost Items
- > Regional Cost Adjustments
- > Database Integration

CostX Course

Begin with CostX basics and 2D takeoff.

13 Risk and Contingency

- > Incorporating Risk Factors
- > Contingency Planning
- > Monte Carlo Simulation
- > Risk Reporting
- > Risk Mitigation Strategies

14 Change Management

- > Handling Variations
- > Change Order Estimation
- > Impact Analysis
- > Version Comparison
- > Documentation of Changes

15 Advanced Reporting

- > Custom Dashboards
- > Interactive Reports
- > Export to BI Tools
- > Performance Metrics
- > Trend Analysis

16 Project Lifecycle Integration

- > Tendering with CostX
- > Procurement Integration
- > Construction Phase Tracking
- > Post-Construction Analysis
- > Lifecycle Costing

Final Projects and Assessment:

- **Assessment:** Project-based evaluation through real-world projects to assess practical skills and application without theory exams.
- **Tailored Curriculum:** Customized to industry standards, covering essential topics for professional development in relevant fields.
- **Hands-on Projects:** Real-world simulations and interactive tasks to build applicable skills and create professional portfolios.
- **Certification Prep:** Targeted review sessions, practice exercises, and strategies for achieving industry certifications.
- **Ongoing Support:** Access to recorded materials, forums, instructor guidance, and career assistance for long-term growth.

Muppuli Raja

One of great institute for REVIT BIM course. I completed my training with Mr Ahmed. He is one great trainer in this institute. He has very good knowledge for BIM Training. I completed my REVIT BIM training with orbit and it was very nice learning journey for me. And one of best thing is training center is very flexible for classes.

Arun

Best SolidWorks training in Dubai! The instructor made 3D modeling and assembly design easy to understand. The course covered all essential tools I need for product design and engineering work. Best training center for solidworks training. Best Training Center for Best Skills

Harshu CH

My experience at Orbit training center has been the best In every step I learn from there very clearly almost complete my course it's very interesting the trainer is the best professional and friendly ,and the rest of the team keep it up, thanks for supporting me Orbit and all staff...

Ranjan Axalan

I just finished my course in 3ds max. I learned a lot on how to create 3d model. Thank you for the experience and for the teaching method it help me to understand easily and grow my knowledge. I will use my learnings to my future company. Highly Recomanded!

Numan

I had good support from trainer Mr Ahmed and the other staff. They would schedule my BIM classes as per my convenience and would retake classes if I required. They always answer my calls when I need assistance. Not only that the trainer would go a mile a ahead by helping me with my work related issues like a true mentor.

Lelanie Fernandez

Overall, I highly recommend the Fusion 360 training at Orbit Center, especially with Ahmad as the instructor. This course has exceeded my expectations, and I am learning a lot. I would rate it 5 out of 5 stars!

Aman Bakhtiyar

I had a great learning experience at Orbit Training Center. The trainers are knowledgeable, supportive, and always ready to help. The clear and practical teaching methods really helped improve my skills and confidence. I highly recommend Orbit Training Center to anyone looking to learn AutoCAD, Revit, and other professional skills.

Sana Zahid -

I recently completed the online Digital Marketing course with Orbit Training Center, and it was a great experience! The lessons were clear, practical, and easy to follow. The trainers were knowledgeable and supportive throughout the course. I've learned a lot that I can apply to my work here in Belgium. Highly recommend Orbit Training Center to anyone looking to improve their digital marketing skills!

Cleavon Henderson

Orbit Training Center offers outstanding CAD classes that are easy to understand, even as a first-year mechanical engineering student. The instructors simplify complex concepts and use practical examples, making the learning process engaging and effective. Whether you're new to CAD or improving your skills, Orbit Training Center provides a supportive and enriching environment. Highly recommended!

Danish Khan

Just finished Primavera P6 training at Orbit Training Center and it was fantastic! The trainer made complex scheduling concepts easy to understand with real-world examples. Got hands-on experience with project planning, resource allocation, and progress tracking. The course was well-structured and I feel confident using Primavera P6 for my projects now. Great value and would definitely recommend to other project managers!
