About Orbit Training Center

Your Gateway to Professional Excellence in Dubai

Who We Are

Established in 2023, Orbit Training Center is a leading professional training provider in Dubai, offering 60+ professional certification courses across diverse fields, including engineering, IT, design, and languages.

Our Benefits

-  Industry recognized certifications
-  Convenient location in the heart of Dubai
-  Affordable fees with multiple payment plans
-  Lifetime post-training support

★Our Features

-  Hands-on learning with real-world projects
-  Expert trainers with industry experience
-  Flexible learning options to fit your schedule
-  State-of-the-art infrastructure & facilities

Our Mission

We deliver outstanding courses, expert teaching, strong career guidance, and placement support to help every student achieve their best results. We stay connected with alumni through networking events, lifelong learning, and ongoing mentorship. We run our operations with smart systems and data-driven decisions to create a smooth, exceptional experience for all.

Excel Mastery Course

Master data analysis and spreadsheets with Excel.

Course Description

Excel course covers essential to advanced skills including formulas pivot tables data visualization automation with macros and powerful analysis tools.

Duration

15-28

Hours of Training

Format

Classroom / Online

Flexible Option

Key Outcomes

- ✓ Create and manage complex formulas
- ✓ Build dynamic pivot tables reports
- ✓ Visualize data with charts effectively
- ✓ Automate tasks using macros VBA
- ✓ Perform data cleaning and validation
- ✓ Use advanced functions lookups
- ✓ Collaborate and protect spreadsheets

Target Audience

- Business analysts and data professionals
- Office workers and students
- Finance and reporting specialists

Certification

- Certificate of Course Completion
- Industry Recognized Certification
- Trained by Certified Professionals

Prerequisites

- Basic computer and spreadsheet skills
- Understanding of data entry
- Knowledge of simple calculations

Excel Mastery Course

Unlock powerful data skills starting with Excel fundamentals.

Intermediate

- Covers all Intermediate Levels
- Precise Geometry Creation
- Basic Parameters & Standards
- Understanding of Tools & Uses
- Intermediate Project Standard
- 1 Project at Completion

Duration
15 Hrs

Professional

- Covers all Professional Modules
- 16 Standard Professional Modules
- Learn with Industry Standard
- Professional Tools and Uses
- Multiple Professional Projects
- 3 Projects at Completion

Duration
22 Hrs

Advanced (Customized)

- Covers All Professional Modules
- 16+ Advance Professional Module
- Co-Ordination and Adv. Parameters
- Shop Drawings & As Built Drawings
- Govt. Standard and Submission
- 4 Projects in Different Categories

Duration
28 Hrs

Excel Mastery Course

Unlock powerful data skills starting with Excel fundamentals.

01 Navigating the Excel Interface and Workspace

- > Customize ribbon and quick access toolbar
- > Utilize formula bar and name box effectively
- > Manage worksheets and views efficiently
- > Set preferences for calculation display
- > Explore keyboard shortcuts for productivity

02 Entering and Formatting Data Basics

- > Input text numbers and dates accurately
- > Apply cell formats for alignment borders
- > Use fill series for data patterns
- > Copy paste special for values formats
- > Adjust column widths row heights

03 Formulas and Functions Fundamentals

- > Create basic arithmetic formulas
- > Use absolute relative cell references
- > Apply SUM AVERAGE COUNT functions
- > Build IF logical functions
- > Handle errors with IFERROR

04 Data Organization and Tables

- > Convert ranges to tables for structure
- > Apply table styles and formatting
- > Use slicers for interactive filtering
- > Sort and filter data effectively
- > Remove duplicates and validate data

05 Charts and Data Visualization

- > Create column bar pie charts
- > Customize axes labels and legends
- > Apply chart styles and colors
- > Add trendlines data labels
- > Use sparklines for mini charts

06 PivotTables for Data Analysis

- > Create PivotTables from data ranges
- > Arrange fields in rows columns values
- > Apply filters slicers for interactivity
- > Group and calculate summary data
- > Refresh and change data sources

Excel Mastery Course

Unlock powerful data skills starting with Excel fundamentals.

07 Advanced Formulas and Functions

- > Use VLOOKUP HLOOKUP for lookups
- > Apply INDEX MATCH for flexible searches
- > Build nested IF and AND OR logic
- > Use TEXT functions for formatting
- > Apply DATE TIME functions accurately

08 Data Validation and Conditional Formatting

- > Set data validation rules lists
- > Create custom validation formulas
- > Apply conditional formatting color scales
- > Use data bars icons for visualization
- > Manage conditional rules effectively

09 Macros and VBA Basics

- > Record macros for repetitive tasks
- > Edit macros in VBA editor
- > Assign macros to buttons shortcuts
- > Use relative absolute recording
- > Run debug simple macros

10 Power Query for Data Import Cleaning

- > Import data from files databases
- > Clean transform data with Power Query
- > Merge append queries efficiently
- > Create calculated columns parameters
- > Load data to worksheets models

11 Power Pivot for Data Modeling

- > Create data models with relationships
- > Build measures with DAX functions
- > Use calculated columns for analysis
- > Create hierarchies for drill-down
- > Generate reports from data models

12 Advanced Charting Techniques

- > Create combo charts for mixed data
- > Use secondary axes for dual scales
- > Apply advanced formatting themes
- > Add interactive elements with slicers
- > Export charts as images PDF

Excel Mastery Course

Unlock powerful data skills starting with Excel fundamentals.

13 Collaboration and Sharing Features

- > Share workbooks via OneDrive email
- > Track changes and add comments
- > Protect sheets cells with passwords
- > Merge workbooks from multiple users
- > Use co-authoring for real-time edits

14 Optimization and Performance Best Practices

- > Manage large datasets efficiently
- > Use named ranges for clarity
- > Apply array formulas for complex calc
- > Compress files remove unused data
- > Audit formulas for errors dependencies

15 Professional Excel Projects

- > Create financial models with formulas
- > Design dashboards with PivotCharts
- > Develop data analysis reports
- > Prepare Gantt charts for projects
- > Optimize templates for business use

16 Advanced Data Analysis Techniques

- > Use solver for optimization problems
- > Apply what-if analysis with scenarios
- > Create forecasting with trend functions
- > Use power view for interactive reports
- > Integrate with external data sources

Final Projects and Assement:

- **Assessment:** Project-based evaluation through real-world projects to assess practical skills and application without theory exams.
- **Tailored Curriculum:** Customized to industry standards, covering essential topics for professional development in relevant fields.
- **Hands-on Projects:** Real-world simulations and interactive tasks to build applicable skills and create professional portfolios.
- **Certification Prep:** Targeted review sessions, practice exercises, and strategies for achieving industry certifications.
- **Ongoing Support:** Access to recorded materials, forums, instructor guidance, and career assistance for long-term growth.

Muppuli Raja

One of great institute for REVIT BIM course. I completed my training with Mr Ahmed. He is one great trainer in this institute. He has very good knowledge for BIM Training. I completed my REVIT BIM training with orbit and it was very nice learning journey for me. And one of best thing is training center is very flexible for classes.

Arun

Best SolidWorks training in Dubai! The instructor made 3D modeling and assembly design easy to understand. The course covered all essential tools I need for product design and engineering work. Best training center for solidworks training. Best Training Center for Best Skills

Harshu CH

My experience at Orbit training center has been the best In every step I learn from there very clearly almost complete my course it's very interesting the trainer is the best professional and friendly ,and the rest of the team keep it up, thanks for supporting me Orbit and all staff...

Ranjan Axalan

I just finished my course in 3ds max. I learned a lot on how to create 3d model. Thank you for the experience and for the teaching method it help me to understand easily and grow my knowledge. I will use my learnings to my future company. Highly Recomanded!

Numan

I had good support from trainer Mr Ahmed and the other staff. They would schedule my BIM classes as per my convenience and would retake classes if I required. They always answer my calls when I need assistance. Not only that the trainer would go a mile a ahead by helping me with my work related issues like a true mentor.

Lelanie Fernandez

Overall, I highly recommend the Fusion 360 training at Orbit Center, especially with Ahmad as the instructor. This course has exceeded my expectations, and I am learning a lot. I would rate it 5 out of 5 stars!

Aman Bakhtiyar

I had a great learning experience at Orbit Training Center. The trainers are knowledgeable, supportive, and always ready to help. The clear and practical teaching methods really helped improve my skills and confidence. I highly recommend Orbit Training Center to anyone looking to learn AutoCAD, Revit, and other professional skills.

Sana Zahid -

I recently completed the online Digital Marketing course with Orbit Training Center, and it was a great experience! The lessons were clear, practical, and easy to follow. The trainers were knowledgeable and supportive throughout the course. I've learned a lot that I can apply to my work here in Belgium. Highly recommend Orbit Training Center to anyone looking to improve their digital marketing skills!

Cleavon Henderson

Orbit Training Center offers outstanding CAD classes that are easy to understand, even as a first-year mechanical engineering student. The instructors simplify complex concepts and use practical examples, making the learning process engaging and effective. Whether you're new to CAD or improving your skills, Orbit Training Center provides a supportive and enriching environment. Highly recommended!

Danish Khan

Just finished Primavera P6 training at Orbit Training Center and it was fantastic! The trainer made complex scheduling concepts easy to understand with real-world examples. Got hands-on experience with project planning, resource allocation, and progress tracking. The course was well-structured and I feel confident using Primavera P6 for my projects now. Great value and would definitely recommend to other project managers!
