About Orbit Training Center

Your Gateway to Professional Excellence in Dubai

Who We Are

Established in 2023, Orbit Training Center is a leading professional training provider in Dubai, offering 60+ professional certification courses across diverse fields, including engineering, IT, design, and languages.

Our Benefits

-  Industry recognized certifications
-  Convenient location in the heart of Dubai
-  Affordable fees with multiple payment plans
-  Lifetime post-training support

★ Our Features

-  Hands-on learning with real-world projects
-  Expert trainers with industry experience
-  Flexible learning options to fit your schedule
-  State-of-the-art infrastructure & facilities

Our Mission

We deliver outstanding courses, expert teaching, strong career guidance, and placement support to help every student achieve their best results. We stay connected with alumni through networking events, lifelong learning, and ongoing mentorship. We run our operations with smart systems and data-driven decisions to create a smooth, exceptional experience for all.

Figma Mastery Course

Become proficient in collaborative UI design with Figma.

Course Description

This comprehensive Figma course covers advanced features like auto-layout variants components prototyping design systems and team collaboration for efficient design.

Duration

20-28

Hours of Training

Format

Classroom / Online

Flexible Option

Key Outcomes

- ✓ Build responsive design systems
- ✓ Use auto-layout for flexible components
- ✓ Create advanced interactive prototypes
- ✓ Implement variants and modes effectively
- ✓ Collaborate in real-time seamlessly
- ✓ Design handoff-ready assets
- ✓ Manage design libraries efficiently

Target Audience

- UI/UX designers and teams
- Product designers and developers
- Freelancers mastering modern tools

Certification

- Certificate of Course Completion
- Industry Recognized Certification
- Trained by Certified Professionals

Prerequisites

- Basic Figma or design tool experience
- Understanding of UI principles
- Knowledge of prototyping basics

Figma Mastery Course

Elevate your design skills with advanced Figma techniques.

Intermediate

- › Covers all Intermediate Levels
- › Precise Design Creation
- › Build Your Own Portfolio
- › Understanding of Tools & Uses
- › Intermediate Project Standard
- › 1 Project at Completion

Duration
20 Hrs

Professional

- › Covers all Professional Modules
- › 16 Standard Professional Modules
- › Learn Professional Design
- › Build a Professional Portfolio
- › Multiple Professional Projects
- › 3 Projects at Completion

Duration
28 Hrs

Career Opportunities

- Graphic Designer: logos and branding
- Video Editor: TikTok, Reels, YouTube
- Motion Graphics: animated videos and ads
- UI/UX Designer: app and web interfaces
- Social Media Creator: graphics + short videos
- Brand Identity: logos and style guides
- Multimedia Designer: graphics with animation
- Freelance Creative: remote design and editing
- Art Director: leading visual projects
- Digital Marketer: ads and promo videos

**Ready for digital, social, branding,
and motion roles in fast-growing
media world.**

Figma Mastery Course

Elevate your design skills with advanced Figma techniques.

01 Navigating the Figma Interface Effectively

- > Master canvas zooming and panning techniques
- > Utilize toolbar icons for quick access
- > Customize workspace layouts for efficiency
- > Explore layers panel organization tools
- > Adjust viewport settings for precision

02 Creating Basic Shapes and Vectors

- > Draw rectangles and ellipses accurately
- > Apply pen tool for custom paths
- > Combine shapes using boolean operations
- > Edit anchor points and curves
- > Transform objects with scale and rotate

03 Organizing Layers and Groups

- > Rename layers for clear hierarchy
- > Group elements to maintain structure
- > Use frames for responsive containers
- > Align and distribute objects precisely
- > Lock and hide layers selectively

04 Working with Text and Typography

- > Add and format text elements
- > Apply character and paragraph styles
- > Create text on paths and shapes
- > Warp text for creative effects
- > Use auto-layout for responsive text

05 Color Management and Swatches

- > Create color palettes and swatches
- > Apply gradients and fills effectively
- > Use color picker for precise matching
- > Adjust opacity and blending modes
- > Organize color styles for consistency

06 Importing and Managing Assets

- > Import images SVGs and components
- > Place and mask images in frames
- > Link assets from libraries
- > Update and relink external files
- > Optimize asset performance in designs

Figma Mastery Course

Elevate your design skills with advanced Figma techniques.

07 Components and Variants for Reusability

- > Create main components and instances
- > Define variants for different states
- > Override properties in instances
- > Swap components for design flexibility
- > Organize component libraries

08 Auto-Layout and Responsive Design

- > Apply auto-layout to frames
- > Set padding spacing and alignment
- > Create responsive components
- > Use constraints for screen resizing
- > Test layouts on different devices

09 Prototyping Interactions and Transitions

- > Link frames with prototype wires
- > Apply transitions and animations
- > Create overlays for modals
- > Add device frames for preview
- > Share prototypes for feedback

10 Advanced Prototyping with Variables

- > Define variables for dynamic data
- > Use modes for state management
- > Apply conditional logic in prototypes
- > Create interactive forms
- > Test variable-driven interactions

11 Collaboration and Co-Editing Tools

- > Invite team members for real-time editing
- > Use comments for feedback
- > Manage version history and branches
- > Share design files securely
- > Integrate with Slack Jira tools

12 Design Systems and Libraries Management

- > Build scalable design system components
- > Publish libraries for team use
- > Subscribe to external libraries
- > Update linked components automatically
- > Document system guidelines in Figma

Figma Mastery Course

Elevate your design skills with advanced Figma techniques.

13 Plugins and Automation Extensions

- > Install plugins from Figma community
- > Use plugins for data import UI kits
- > Automate repetitive tasks with plugins
- > Integrate with FigJam for brainstorming
- > Create custom plugins if needed

14 Advanced Vector Editing Techniques

- > Use vector networks for complex shapes
- > Apply boolean operations advancedly
- > Create icons and illustrations
- > Edit paths with precision tools
- > Combine with effects for depth

15 Preparing for Handoff and Export

- > Generate design specs for developers
- > Export assets in various formats
- > Create developer handoff packages
- > Use inspect mode for measurements
- > Prepare interactive prototypes for testing

16 Professional UI UX Project Workflows

- > Design mobile app interfaces efficiently
- > Create responsive web layouts
- > Develop wireframes to high-fidelity
- > Conduct user testing with prototypes
- > Iterate designs based on feedback

Final Projects and Assement:

- **Assessment:** Project-based evaluation through real-world projects to assess practical skills and application without theory exams.
- **Tailored Curriculum:** Customized to industry standards, covering essential topics for professional development in relevant fields.
- **Hands-on Projects:** Real-world simulations and interactive tasks to build applicable skills and create professional portfolios.
- **Certification Prep:** Targeted review sessions, practice exercises, and strategies for achieving industry certifications.
- **Ongoing Support:** Access to recorded materials, forums, instructor guidance, and career assistance for long-term growth.

Muppuli Raja

One of great institute for REVIT BIM course. I completed my training with Mr Ahmed. He is one great trainer in this institute. He has very good knowledge for BIM Training. I completed my REVIT BIM training with orbit and it was very nice learning journey for me. And one of best thing is training center is very flexible for classes.

Arun

Best SolidWorks training in Dubai! The instructor made 3D modeling and assembly design easy to understand. The course covered all essential tools I need for product design and engineering work. Best training center for solidworks training. Best Training Center for Best Skills

Harshu CH

My experience at Orbit training center has been the best In every step I learn from there very clearly almost complete my course it's very interesting the trainer is the best professional and friendly ,and the rest of the team keep it up, thanks for supporting me Orbit and all staff...

Ranjan Axalan

I just finished my course in 3ds max. I learned a lot on how to create 3d model. Thank you for the experience and for the teaching method it help me to understand easily and grow my knowledge. I will use my learnings to my future company. Highly Recomanded!

Numan

I had good support from trainer Mr Ahmed and the other staff. They would schedule my BIM classes as per my convenience and would retake classes if I required. They always answer my calls when I need assistance. Not only that the trainer would go a mile a ahead by helping me with my work related issues like a true mentor.

Lelanie Fernandez

Overall, I highly recommend the Fusion 360 training at Orbit Center, especially with Ahmad as the instructor. This course has exceeded my expectations, and I am learning a lot. I would rate it 5 out of 5 stars!

Aman Bakhtiyar

I had a great learning experience at Orbit Training Center. The trainers are knowledgeable, supportive, and always ready to help. The clear and practical teaching methods really helped improve my skills and confidence. I highly recommend Orbit Training Center to anyone looking to learn AutoCAD, Revit, and other professional skills.

Sana Zahid -

I recently completed the online Digital Marketing course with Orbit Training Center, and it was a great experience! The lessons were clear, practical, and easy to follow. The trainers were knowledgeable and supportive throughout the course. I've learned a lot that I can apply to my work here in Belgium. Highly recommend Orbit Training Center to anyone looking to improve their digital marketing skills!

Cleavon Henderson

Orbit Training Center offers outstanding CAD classes that are easy to understand, even as a first-year mechanical engineering student. The instructors simplify complex concepts and use practical examples, making the learning process engaging and effective. Whether you're new to CAD or improving your skills, Orbit Training Center provides a supportive and enriching environment. Highly recommended!

Danish Khan

Just finished Primavera P6 training at Orbit Training Center and it was fantastic! The trainer made complex scheduling concepts easy to understand with real-world examples. Got hands-on experience with project planning, resource allocation, and progress tracking. The course was well-structured and I feel confident using Primavera P6 for my projects now. Great value and would definitely recommend to other project managers!
