Frontend Web Development

Begin your frontend journey with structured modules covering fundamentals of HTML CSS to advanced JavaScript development and deployment.

01 Introduction to Web Development

- > What is web development and how the internet works
- > Understanding browsers and how they render web pages
- > Client-side vs server-side development
- > Setting up VS Code and essential extensions
- > Introduction to file and folder structure for web projects

02 HTML Fundamentals

- > HTML document structure and DOCTYPE declaration
- > Headings paragraphs and text formatting tags
- > Lists (ordered unordered and description lists)
- > Links and navigation with anchor tags
- > Working with images and file paths

03 HTML Forms and Tables

- > Creating forms with input fields and labels
- > Form elements: text email password checkbox radio and select
- > Submit buttons and basic form structure
- > Building tables with rows columns and headers
- > Merging cells with colspan and rowspan

04 HTML5 Semantic Elements

- > Understanding semantic vs non-semantic elements
- > Using header nav main section article and footer
- > Aside and figure elements for supporting content
- > Semantic structure for accessibility and SEO
- > Building a complete semantic HTML page layout

05 Introduction to CSS

- > What is CSS and how to link it to HTML
- > Inline internal and external stylesheets
- > CSS selectors: element class ID and universal
- > CSS properties for color background and borders
- > Understanding the CSS cascade and specificity

06 CSS Box Model and Sizing

- > Understanding margin padding border and content
- > Box-sizing property and its importance
- > Width height min-max sizing
- > Display property: block inline and inline-block
- > Visibility and overflow properties

Frontend Web Development

Begin your frontend journey with structured modules covering fundamentals of HTML CSS to advanced JavaScript development and deployment.

07 CSS Typography and Colors

- > Web-safe fonts and Google Fonts integration
- > Font-size font-weight font-style and line-height
- > Text alignment decoration spacing and transformation
- > CSS color formats: named hex RGB and HSL
- > Applying color schemes consistently across a page

08 CSS Positioning and Layout

- > Static relative absolute and fixed positioning
- > Z-index and stacking context
- > Float property and clearing floats
- > CSS units: px em rem % and vh/vw
- > Building simple multi-column layouts

09 CSS Flexbox

- > Introduction to Flexbox and the flex container
- > flex-direction justify-content and align-items
- > flex-wrap align-content and gap
- > Flex item properties: flex-grow flex-shrink and flex-basis
- > Building practical layouts with Flexbox

10 CSS Grid

- > Introduction to CSS Grid and grid containers
- > Defining rows and columns with grid-template
- > Placing items with grid-column and grid-row
- > grid-gap and the fr unit
- > Building a full page layout with CSS Grid

11 Responsive Web Design

- > What is responsive design and why it matters
- > CSS media queries: syntax and breakpoints
- > Mobile-first vs desktop-first approach
- > Responsive images and flexible units
- > Building a responsive webpage from scratch

12 JavaScript Fundamentals

- > What is JavaScript and how to add it to a webpage
- > Variables with var let and const
- > Data types: strings numbers booleans null and undefined
- > Operators: arithmetic comparison and logical
- > Writing and calling functions

Frontend Web Development

Begin your frontend journey with structured modules covering fundamentals of HTML CSS to advanced JavaScript development and deployment.

13 JavaScript Control Flow

- > Conditional statements: if else and else if
- > Switch statements for multiple conditions
- > Loops: for while and do-while
- > Break and continue in loops
- > Nested conditions and loops

15 JavaScript DOM Manipulation

- > Selecting elements with getElementById querySelector and querySelectorAll
- > Changing text content and HTML with innerHTML and textContent
- > Modifying CSS styles and classes with JavaScript
- > Handling click and input events
- > Building interactive elements like toggles and dropdowns

14 JavaScript Arrays and Objects

- > Creating and accessing arrays
- > Array methods: push pop shift unshift splice and slice
- > Creating and accessing objects with key-value pairs
- > Looping through arrays and objects
- > Combining arrays and objects for structured data

16 Introduction to Bootstrap

- > What is Bootstrap and how to include it via CDN
- > Bootstrap grid system: containers rows and columns
- > Bootstrap responsive breakpoints (sm md lg xl)
- > Using Bootstrap utility classes for spacing color and text
- > Building a responsive layout quickly with Bootstrap grid

Final Projects and Assessment:

- **Assessment:** Project-based evaluation through real-world projects to assess practical skills and application without theory exams.
- **Tailored Curriculum:** Customized to industry standards, covering essential topics for professional development in relevant fields.
- **Hands-on Projects:** Real-world simulations and interactive tasks to build applicable skills and create professional portfolios.
- **Certification Prep:** Targeted review sessions, practice exercises, and strategies for achieving industry certifications.
- **Ongoing Support:** Access to recorded materials, forums, instructor guidance, and career assistance for long-term growth.

Muppuli Raja

One of great institute for REVIT BIM course. I completed my training with Mr Ahmed. He is one great trainer in this institute. He has very good knowledge for BIM Training. I completed my REVIT BIM training with orbit and it was very nice learning journey for me. And one of best thing is training center is very flexible for classes.

Arun

Best SolidWorks training in Dubai! The instructor made 3D modeling and assembly design easy to understand. The course covered all essential tools I need for product design and engineering work. Best training center for solidworks training. Best Training Center for Best Skills

Harshu CH

My experience at Orbit training center has been the best In every step I learn from there very clearly almost complete my course it's very interesting the trainer is the best professional and friendly ,and the rest of the team keep it up, thanks for supporting me Orbit and all staff...

Ranjan Axalan

I just finished my course in 3ds max. I learned a lot on how to create 3d model. Thank you for the experience and for the teaching method it help me to understand easily and grow my knowledge. I will use my learnings to my future company. Highly Recomanded!

Numan

I had good support from trainer Mr Ahmed and the other staff. They would schedule my BIM classes as per my convenience and would retake classes if I required. They always answer my calls when I need assistance. Not only that the trainer would go a mile a ahead by helping me with my work related issues like a true mentor.

Lelanie Fernandez

Overall, I highly recommend the Fusion 360 training at Orbit Center, especially with Ahmad as the instructor. This course has exceeded my expectations, and I am learning a lot. I would rate it 5 out of 5 stars!

Aman Bakhtiyar

I had a great learning experience at Orbit Training Center. The trainers are knowledgeable, supportive, and always ready to help. The clear and practical teaching methods really helped improve my skills and confidence. I highly recommend Orbit Training Center to anyone looking to learn AutoCAD, Revit, and other professional skills.

Sana Zahid -

I recently completed the online Digital Marketing course with Orbit Training Center, and it was a great experience! The lessons were clear, practical, and easy to follow. The trainers were knowledgeable and supportive throughout the course. I've learned a lot that I can apply to my work here in Belgium. Highly recommend Orbit Training Center to anyone looking to improve their digital marketing skills!

Cleavon Henderson

Orbit Training Center offers outstanding CAD classes that are easy to understand, even as a first-year mechanical engineering student. The instructors simplify complex concepts and use practical examples, making the learning process engaging and effective. Whether you're new to CAD or improving your skills, Orbit Training Center provides a supportive and enriching environment. Highly recommended!

Danish Khan

Just finished Primavera P6 training at Orbit Training Center and it was fantastic! The trainer made complex scheduling concepts easy to understand with real-world examples. Got hands-on experience with project planning, resource allocation, and progress tracking. The course was well-structured and I feel confident using Primavera P6 for my projects now. Great value and would definitely recommend to other project managers!
