About Orbit Training Center

Your Gateway to Professional Excellence in Dubai

Who We Are

Established in 2023, Orbit Training Center is a leading professional training provider in Dubai, offering 60+ professional certification courses across diverse fields, including engineering, IT, design, and languages.

Our Benefits

-  Industry recognized certifications
-  Convenient location in the heart of Dubai
-  Affordable fees with multiple payment plans
-  Lifetime post-training support

★Our Features

-  Hands-on learning with real-world projects
-  Expert trainers with industry experience
-  Flexible learning options to fit your schedule
-  State-of-the-art infrastructure & facilities

Our Mission

We deliver outstanding courses, expert teaching, strong career guidance, and placement support to help every student achieve their best results. We stay connected with alumni through networking events, lifelong learning, and ongoing mentorship. We run our operations with smart systems and data-driven decisions to create a smooth, exceptional experience for all.

Microsoft Project Course

It is the tool to learn project planning with Microsoft Project.

Course Description

This course covers Microsoft Project for effective project management. Gain skills in creating Gantt charts resource allocation and progress tracking. Hands-on projects include baseline setting variance analysis and reporting for professional application in construction IT and business environments.

Duration

30-40

Hours of Training

Format

Classroom / Online

Flexible Option

Key Outcomes

- ✓ Master Project interface.
- ✓ Create task schedules.
- ✓ Assign resources costs.
- ✓ Track project progress.
- ✓ Analyze variances risks.
- ✓ Generate custom reports.
- ✓ Enhance team collaboration.

Target Audience

- Project Managers planning.
- Civil Engineers scheduling.
- Mechanical in projects.

Certification

- Certificate of Course Completion
- Industry Recognized Certification
- Trained by Certified Professionals

Prerequisites

- Basic computer skills needed.
- Interest in management.
- Access to MS Project.

Microsoft Project Course

Start with Project basics and schedule creation.

Intermediate

- Covers all Intermediate Levels
- Precise Geometry Creation
- Basic Parameters & Standards
- Understanding of Tools & Uses
- Intermediate Project Standard
- 1 Project at Completion

Duration
30 Hrs

Professional

- Covers all Professional Modules
- 16 Standard Professional Modules
- Learn with Industry Standard
- Professional Tools and Uses
- Multiple Professional Projects
- 3 Projects at Completion

Duration
35 Hrs

Advanced (Customized)

- Covers All Professional Modules
- 16+ Advance Professional Module
- Co-Ordination and Adv. Parameters
- Shop Drawings & As Built Drawings
- Govt. Standard and Submission
- 4 Projects in Different Categories

Duration
40 Hrs

Microsoft Project Course

Start with Project basics and schedule creation.

01 Navigating the Microsoft Project Interface

- > Explore ribbon tabs and command groups
- > Customize Quick Access Toolbar for efficiency
- > Switch between essential project views
- > Configure project information and properties
- > Set up working time calendars accurately

02 Creating and Setting Up New Projects

- > Define project start date and scope
- > Import task lists from Excel seamlessly
- > Establish project calendars and exceptions
- > Organize tasks using summary and subtasks
- > Insert key milestones and deliverables

03 Building Detailed Task Structures

- > Create comprehensive task lists systematically
- > Define task durations and work estimates
- > Apply finish-to-start and other dependencies
- > Insert lags and leads between tasks
- > Sequence activities using task inspector

04 Working with Task Types and Constraints

- > Understand fixed units duration work types
- > Assign appropriate task constraints wisely
- > Convert constraints to flexible scheduling
- > Use deadline dates versus constraint dates
- > Resolve scheduling conflicts effectively

05 Allocating and Managing Resources

- > Create and categorize resource pools
- > Assign work material and cost resources
- > Set resource calendars and max units
- > Perform resource leveling to resolve overallocations
- > View resource usage and allocation graphs

06 Developing Realistic Project Schedules

- > Calculate and analyze critical path method
- > Identify driving predecessors and successors
- > Apply resource smoothing techniques
- > Incorporate recurring tasks and meetings
- > Use what-if scenario planning tools

Microsoft Project Course

Start with Project basics and schedule creation.

07 Establishing Baselines for Control

- > Set project interim and multiple baselines
- > Save baseline values at key stages
- > Compare multiple baseline versions
- > Protect baseline integrity during updates
- > Restore or clear baselines when required

08 Tracking Progress and Performance

- > Update percent complete and actuals accurately
- > Record actual start finish and durations
- > Reschedule uncompleted work to new dates
- > Analyze schedule and cost variances
- > Use tracking Gantt and progress lines

09 Managing Project Costs and Budgets

- > Enter resource rates and cost tables
- > Assign fixed costs to tasks and summaries
- > Track actual costs against baseline
- > Calculate cost variance and performance indices
- > Forecast estimate at completion values

10 Performing Earned Value Management

- > Configure earned value calculation settings
- > Analyze CPI SPI and other indices
- > Generate earned value tables and graphs
- > Interpret cost and schedule performance
- > Forecast project completion metrics

11 Customizing Views Tables and Filters

- > Modify existing views for specific needs
- > Create custom fields and custom tables
- > Design personalized Gantt Chart formats
- > Build and apply advanced filters
- > Group and sort data for analysis

12 Creating and Formatting Reports

- > Use built-in visual and tabular reports
- > Customize report templates professionally
- > Add charts tables and text boxes
- > Format visual reports for clarity
- > Export reports to PDF and Excel

Microsoft Project Course

Start with Project basics and schedule creation.

13 Integrating Microsoft Project with Excel

- › Export project data to Excel worksheets
- › Import updated task and resource data
- › Create dynamic links between files
- › Use Excel for what-if cost analysis
- › Generate custom dashboards from exported data

14 Handling Multiple Projects and Consolidation

- › Open and manage multiple project files
- › Create master projects with subprojects
- › Consolidate resource pools across files
- › Analyze cross-project critical paths
- › Report consolidated portfolio status

15 Optimizing Large-Scale Engineering Projects

- › Manage very large task volumes efficiently
- › Apply enterprise custom fields and codes
- › Use WBS outlining for complex hierarchies
- › Implement lookup tables and masks
- › Maintain data consistency across phases

16 Producing Professional Deliverables and Outputs

- › Format presentation-quality Gantt charts
- › Generate timeline views and calendars
- › Create network diagrams for logic review
- › Prepare stakeholder summary reports
- › Export complete project documentation

Final Projects and Assessment:

- **Assessment:** Project-based evaluation through real-world projects to assess practical skills and application without theory exams.
- **Tailored Curriculum:** Customized to industry standards, covering essential topics for professional development in relevant fields.
- **Hands-on Projects:** Real-world simulations and interactive tasks to build applicable skills and create professional portfolios.
- **Certification Prep:** Targeted review sessions, practice exercises, and strategies for achieving industry certifications.
- **Ongoing Support:** Access to recorded materials, forums, instructor guidance, and career assistance for long-term growth.

Muppuli Raja

One of great institute for REVIT BIM course. I completed my training with Mr Ahmed. He is one great trainer in this institute. He has very good knowledge for BIM Training. I completed my REVIT BIM training with orbit and it was very nice learning journey for me. And one of best thing is training center is very flexible for classes.

Arun

Best SolidWorks training in Dubai! The instructor made 3D modeling and assembly design easy to understand. The course covered all essential tools I need for product design and engineering work. Best training center for solidworks training. Best Training Center for Best Skills

Harshu CH

My experience at Orbit training center has been the best In every step I learn from there very clearly almost complete my course it's very interesting the trainer is the best professional and friendly ,and the rest of the team keep it up, thanks for supporting me Orbit and all staff...

Ranjan Axalan

I just finished my course in 3ds max. I learned a lot on how to create 3d model. Thank you for the experience and for the teaching method it help me to understand easily and grow my knowledge. I will use my learnings to my future company. Highly Recomanded!

Numan

I had good support from trainer Mr Ahmed and the other staff. They would schedule my BIM classes as per my convenience and would retake classes if I required. They always answer my calls when I need assistance. Not only that the trainer would go a mile a ahead by helping me with my work related issues like a true mentor.

Lelanie Fernandez

Overall, I highly recommend the Fusion 360 training at Orbit Center, especially with Ahmad as the instructor. This course has exceeded my expectations, and I am learning a lot. I would rate it 5 out of 5 stars!

Aman Bakhtiyar

I had a great learning experience at Orbit Training Center. The trainers are knowledgeable, supportive, and always ready to help. The clear and practical teaching methods really helped improve my skills and confidence. I highly recommend Orbit Training Center to anyone looking to learn AutoCAD, Revit, and other professional skills.

Sana Zahid -

I recently completed the online Digital Marketing course with Orbit Training Center, and it was a great experience! The lessons were clear, practical, and easy to follow. The trainers were knowledgeable and supportive throughout the course. I've learned a lot that I can apply to my work here in Belgium. Highly recommend Orbit Training Center to anyone looking to improve their digital marketing skills!

Cleavon Henderson

Orbit Training Center offers outstanding CAD classes that are easy to understand, even as a first-year mechanical engineering student. The instructors simplify complex concepts and use practical examples, making the learning process engaging and effective. Whether you're new to CAD or improving your skills, Orbit Training Center provides a supportive and enriching environment. Highly recommended!

Danish Khan

Just finished Primavera P6 training at Orbit Training Center and it was fantastic! The trainer made complex scheduling concepts easy to understand with real-world examples. Got hands-on experience with project planning, resource allocation, and progress tracking. The course was well-structured and I feel confident using Primavera P6 for my projects now. Great value and would definitely recommend to other project managers!
