

PROFESSIONAL CERTIFICATION

PlanSwift Training

The PlanSwift Course teaches digital takeoff and estimating software. Participants learn quantity measurement cost calculation and bid preparation. Training includes blueprint import assembly creation and reporting for accurate construction estimating in building projects.

About Orbit Training Center

Your Gateway to Professional Excellence in Dubai

Who We Are

Established in 2023, Orbit Training Center is a leading professional training provider in Dubai, offering 60+ professional certification courses across diverse fields, including engineering, IT, design, and languages.

Our Benefits

-  Industry recognized certifications
-  Convenient location in the heart of Dubai
-  Affordable fees with multiple payment plans
-  Lifetime post-training support

★Our Features

-  Hands-on learning with real-world projects
-  Expert trainers with industry experience
-  Flexible learning options to fit your schedule
-  State-of-the-art infrastructure & facilities

Our Mission

We deliver outstanding courses, expert teaching, strong career guidance, and placement support to help every student achieve their best results. We stay connected with alumni through networking events, lifelong learning, and ongoing mentorship. We run our operations with smart systems and data-driven decisions to create a smooth, exceptional experience for all.

PlanSwift Course

It is the tool to learn digital takeoff with PlanSwift.

Course Description

This course covers PlanSwift for construction estimators. Master on-screen takeoff custom assemblies and Excel integration. Projects focus on quantity surveying cost databases and tender preparation for efficient bidding in civil and MEP works.

Duration

25-32

Hours of Training

Format

Classroom / Online

Flexible Option

Key Outcomes

- ✓ Master PlanSwift interface.
- ✓ Import digital plans.
- ✓ Perform quantity takeoffs.
- ✓ Create custom assemblies.
- ✓ Calculate project costs.
- ✓ Generate bid reports.
- ✓ Enhance estimating accuracy.

Target Audience

- Quantity Surveyors estimating.
- Tendering pros in coord.
- Project Coordinators.

Certification

- Certificate of Course Completion
- Industry Recognized Certification
- Trained by Certified Professionals

Prerequisites

- Basic estimating knowledge needed.
- Computer with PlanSwift installed.
- Interest in digital tools.

PlanSwift Course

Start with PlanSwift basics and takeoff techniques.

Intermediate

- › Covers all Intermediate Levels
- › Precise Geometry Creation
- › Basic Parameters & Standards
- › Understanding of Tools & Uses
- › Intermediate Project Standard
- › 1 Project at Completion

Duration
25 Hrs

Professional

- › Covers all Professional Modules
- › 16 Standard Professional Modules
- › Learn with Industry Standard
- › Professional Tools and Uses
- › Multiple Professional Projects
- › 3 Projects at Completion

Duration
29 Hrs

Advanced (Customized)

- › Covers All Professional Modules
- › 16+ Advance Professional Module
- › Co-Ordination and Adv. Parameters
- › Shop Drawings & As Built Drawings
- › Govt. Standard and Submission
- › 4 Projects in Different Categories

Duration
32 Hrs

PlanSwift Course

Start with PlanSwift basics and takeoff techniques.

01 Introduction to Plan swift

- > What is the Plan swift
- > Importance and uses in quantity Surveying and estimation
- > User Interface Overview
- > Supported File types PDF DWG etc
- > How to install and activate Plan swift

02 Basic tools and Navigation

- > Opening and importing drawing
- > Navigating the plan zoom Pan Layers
- > Calibration of drawing scale setting
- > Grid Snap and rotation Setting
- > Basic Measurement Tools

03 Take-off Tools

- > Linear Takeoff Length Measurement
- > Area Takeoff Area Measurement
- > Count tools item Counting
- > Volume Take-off
- > Using Snap to points of accuracy

04 Construction element Take-off

- > Wall Area and Length take-off
- > Floor Area take off
- > Door and Window Counting
- > Ceiling and Roof take-off
- > Painting and Finishing Area Take off

05 Creating And using Templates

- > Creating Templates for Repeated Items
- > Modifying And saving Templates
- > Importing Exporting templates
- > Template Organization
- > Applying Templates to Projects

06 Pricing and Estimation

- > Assigning cost to items
- > Creating assemblies concrete Masonry etc
- > Adjusting labour and materials costs
- > Generating total Cost report
- > Cost Adjustment Techniques

PlanSwift Course

Start with PlanSwift basics and takeoff techniques.

07 Reporting and Exporting

- > Generating take-off summary
- > Customizing Report Excell PDF
- > Exporting data for BOQ BOM
- > Filtering and sorting reports
- > Advanced Report Formatting

08 Advanced Features

- > Using Plug-ins Add-ons
- > Digitizer Setup and Manual Input
- > Overlaying revised drawing for comparison
- > Grouping and layering techniques
- > Custom Layer Management

09 Real Projects Practices

- > Complete Residential Projects take off
- > Commercial Project Estimation
- > BOQ creation from real drawing
- > Student Exercises Sheets and Practices Files
- > Case Study Analysis

10 Final Assessment and Certification

- > Final Project submission
- > Doubts solving session
- > Viva Quiz Optional
- > Certification of Completion
- > Portfolio Development

11 Integration with Other Software

- > Importing from CAD Software
- > Exporting to Accounting Tools
- > Linking with Project Management Apps
- > Data Synchronization Methods
- > Integration Best Practices

12 Customization and Automation

- > Customizing User Interface
- > Creating Custom Formulas
- > Automating Take-off Processes
- > Scripting Basics
- > Advanced Customization Techniques

PlanSwift Course

Start with PlanSwift basics and takeoff techniques.

13 Advanced Estimation Techniques

- > Handling Complex Assemblies
- > Multi-Project Estimation
- > Risk and Contingency Planning
- > Value Engineering Methods
- > Estimation Optimization

15 Industry Case Studies

- > Industrial Project Take-offs
- > Infrastructure Estimation
- > Renovation Project Practices
- > International Standards Compliance
- > Real-World Problem Solving

14 BIM and Digital Integration

- > Working with BIM Models
- > 3D Take-off Techniques
- > Clash Detection in Estimates
- > Digital Twin Applications
- > BIM Workflow Integration

16 Professional Development and Trends

- > Career Paths in Quantity Surveying
- > Software Updates and New Features
- > Future Trends in Estimation Tools
- > Professional Certification Prep
- > Networking and Resources

Final Projects and Assessment:

- **Assessment:** Project-based evaluation through real-world projects to assess practical skills and application without theory exams.
- **Tailored Curriculum:** Customized to industry standards, covering essential topics for professional development in relevant fields.
- **Hands-on Projects:** Real-world simulations and interactive tasks to build applicable skills and create professional portfolios.
- **Certification Prep:** Targeted review sessions, practice exercises, and strategies for achieving industry certifications.
- **Ongoing Support:** Access to recorded materials, forums, instructor guidance, and career assistance for long-term growth.

Muppuli Raja

One of great institute for REVIT BIM course. I completed my training with Mr Ahmed. He is one great trainer in this institute. He has very good knowledge for BIM Training. I completed my REVIT BIM training with orbit and it was very nice learning journey for me. And one of best thing is training center is very flexible for classes.

Arun

Best SolidWorks training in Dubai! The instructor made 3D modeling and assembly design easy to understand. The course covered all essential tools I need for product design and engineering work. Best training center for solidworks training. Best Training Center for Best Skills

Harshu CH

My experience at Orbit training center has been the best In every step I learn from there very clearly almost complete my course it's very interesting the trainer is the best professional and friendly ,and the rest of the team keep it up, thanks for supporting me Orbit and all staff...

Ranjan Axalan

I just finished my course in 3ds max. I learned a lot on how to create 3d model. Thank you for the experience and for the teaching method it help me to understand easily and grow my knowledge. I will use my learnings to my future company. Highly Recomanded!

Numan

I had good support from trainer Mr Ahmed and the other staff. They would schedule my BIM classes as per my convenience and would retake classes if I required. They always answer my calls when I need assistance. Not only that the trainer would go a mile a ahead by helping me with my work related issues like a true mentor.

Lelanie Fernandez

Overall, I highly recommend the Fusion 360 training at Orbit Center, especially with Ahmad as the instructor. This course has exceeded my expectations, and I am learning a lot. I would rate it 5 out of 5 stars!

Aman Bakhtiyar

I had a great learning experience at Orbit Training Center. The trainers are knowledgeable, supportive, and always ready to help. The clear and practical teaching methods really helped improve my skills and confidence. I highly recommend Orbit Training Center to anyone looking to learn AutoCAD, Revit, and other professional skills.

Sana Zahid -

I recently completed the online Digital Marketing course with Orbit Training Center, and it was a great experience! The lessons were clear, practical, and easy to follow. The trainers were knowledgeable and supportive throughout the course. I've learned a lot that I can apply to my work here in Belgium. Highly recommend Orbit Training Center to anyone looking to improve their digital marketing skills!

Cleavon Henderson

Orbit Training Center offers outstanding CAD classes that are easy to understand, even as a first-year mechanical engineering student. The instructors simplify complex concepts and use practical examples, making the learning process engaging and effective. Whether you're new to CAD or improving your skills, Orbit Training Center provides a supportive and enriching environment. Highly recommended!

Danish Khan

Just finished Primavera P6 training at Orbit Training Center and it was fantastic! The trainer made complex scheduling concepts easy to understand with real-world examples. Got hands-on experience with project planning, resource allocation, and progress tracking. The course was well-structured and I feel confident using Primavera P6 for my projects now. Great value and would definitely recommend to other project managers!
