

PROFESSIONAL CERTIFICATION

Primavera P6 Training

The Primavera P6 Course provides comprehensive training in enterprise project management. Learners explore schedule creation resource allocation and progress tracking. Practical sessions cover multi-project handling earned value analysis and reporting to optimize project delivery in construction engineering and manufacturing sectors.

About Orbit Training Center

Your Gateway to Professional Excellence in Dubai

Who We Are

Established in 2023, Orbit Training Center is a leading professional training provider in Dubai, offering 60+ professional certification courses across diverse fields, including engineering, IT, design, and languages.

Our Benefits

-  Industry recognized certifications
-  Convenient location in the heart of Dubai
-  Affordable fees with multiple payment plans
-  Lifetime post-training support

★Our Features

-  Hands-on learning with real-world projects
-  Expert trainers with industry experience
-  Flexible learning options to fit your schedule
-  State-of-the-art infrastructure & facilities

Our Mission

We deliver outstanding courses, expert teaching, strong career guidance, and placement support to help every student achieve their best results. We stay connected with alumni through networking events, lifelong learning, and ongoing mentorship. We run our operations with smart systems and data-driven decisions to create a smooth, exceptional experience for all.

Primavera P6 Course

It is a way to learn advanced planning with Primavera P6 tool.

Course Description

This course delves into Primavera P6 for professional project control. Master WBS creation activity sequencing and baseline management. Projects include resource leveling critical path analysis and S-curve generation for application in large-scale construction oil and gas projects.

Duration

35-45

Hours of Training

Format

Classroom / Online

Flexible Option

Key Outcomes

- ✓ Master P6 interface.
- ✓ Create project schedules.
- ✓ Allocate resources effectively.
- ✓ Track progress updates.
- ✓ Perform earned value analysis.
- ✓ Generate advanced reports.
- ✓ Optimize multi-project portfolios.

Target Audience

- Project Managers in planning.
- Civil Engineers scheduling.
- Mechanical for projects.

Certification

- Certificate of Course Completion
- Industry Recognized Certification
- Trained by Certified Professionals

Prerequisites

- Basic project knowledge required.
- Computer skills needed.
- Interest in enterprise tools.

Primavera P6 Course

Begin with P6 fundamentals and project setup.

Intermediate

- Covers all Intermediate Levels
- Precise Geometry Creation
- Basic Parameters & Standards
- Understanding of Tools & Uses
- Intermediate Project Standard
- 1 Project at Completion

Duration
35 Hrs

Professional

- Covers all Professional Modules
- 16 Standard Professional Modules
- Learn with Industry Standard
- Professional Tools and Uses
- Multiple Professional Projects
- 3 Projects at Completion

Duration
40 Hrs

Advanced (Customized)

- Covers All Professional Modules
- 16+ Advance Professional Module
- Co-Ordination and Adv. Parameters
- Shop Drawings & As Built Drawings
- Govt. Standard and Submission
- 4 Projects in Different Categories

Duration
45 Hrs

Primavera P6 Course

Begin with P6 fundamentals and project setup.

01 Navigating the Primavera P6 Interface

- > Explore menus toolbars and navigation panes
- > Customize layouts and activity table views
- > Switch between Gantt chart network and usage views
- > Configure user preferences and display options
- > Open and manage multiple project windows

02 Understanding Enterprise and Project Data

- > Describe enterprise and project-specific data structures
- > Navigate Organizational Breakdown Structure OBS
- > Explore Enterprise Project Structure EPS hierarchy
- > Differentiate global and project-level data elements
- > Access and modify enterprise calendars

03 Creating a New Project

- > Define project properties and identification codes
- > Set project start date and must-finish-by constraints
- > Assign project calendars and default settings
- > Establish project codes and custom fields
- > Save and open projects within EPS

04 Building Work Breakdown Structure WBS

- > Create hierarchical WBS elements systematically
- > Assign WBS codes and responsible OBS elements
- > Organize phases and deliverables under WBS
- > Apply WBS sorting and grouping features
- > Maintain WBS integrity across project updates

05 Adding and Organizing Activities

- > Create detailed activity lists with durations
- > Define activity types including milestones and WBS summaries
- > Assign activity codes and user-defined fields
- > Set percent complete types and steps
- > Organize activities under appropriate WBS nodes

06 Defining Activity Relationships and Logic

- > Establish finish-to-start start-to-start dependencies
- > Apply finish-to-finish and start-to-finish relationships
- > Insert lags and leads between activities
- > Use activity network view for logic review
- > Verify and resolve open-ended activities

Primavera P6 Course

Begin with P6 fundamentals and project setup.

07 Assigning Constraints and Deadlines

- > Apply start and finish constraints appropriately
- > Differentiate hard versus soft constraints
- > Set mandatory and as-late-as-possible types
- > Assign deadlines and monitor deadline variances
- > Resolve constraint conflicts using scheduling options

08 Scheduling the Project Using CPM

- > Perform forward and backward pass calculations
- > Identify and analyze critical path activities
- > Calculate total float and free float values
- > Schedule project with multiple calendars
- > Review scheduling log for data issues

09 Assigning Resources and Roles

- > Create and assign resource and role dictionaries
- > Define resource types units and rates
- > Assign resources to activities with durations
- > Set resource curves and max units per time period
- > Assign primary and secondary resources effectively

10 Analyzing and Optimizing Resource Allocation

- > View resource usage profiles and histograms
- > Identify resource overallocations and underallocations
- > Perform resource leveling to resolve conflicts
- > Apply smoothing techniques for even distribution
- > Analyze resource assignments across projects

11 Managing Project Costs and Budgets

- > Enter resource rates and cost tables
- > Assign fixed costs and expense categories
- > Calculate budgeted total and cost loading
- > Track planned value and cost curves
- > Forecast cash flow using cost loading

12 Establishing and Managing Baselines

- > Create primary and secondary baseline plans
- > Assign multiple baselines for comparison
- > Update baselines at key project milestones
- > Compare current schedule against baselines
- > Restore or convert baselines as needed

Primavera P6 Course

Begin with P6 fundamentals and project setup.

13 Tracking Progress and Updating Status

- > Record actual start finish and durations
- > Update physical duration and units percent complete
- > Apply progress using activity steps and milestones
- > Reschedule remaining work after data date
- > Analyze variances in schedule and cost performance

14 Performing Earned Value Analysis

- > Configure earned value settings and techniques
- > Calculate CPI SPI and other performance indices
- > Generate earned value tables and graphs
- > Interpret cost and schedule variance metrics
- > Forecast estimate at completion and variance at completion

15 Customizing Views Filters and Grouping

- > Design custom layouts for specific analysis
- > Create and apply advanced filters dynamically
- > Group and sort activities by codes or fields
- > Format Gantt bars columns and timescales
- > Save and share customized view configurations

16 Generating Professional Reports and Outputs

- > Use built-in tabular and visual reports
- > Customize report templates with grouping and filtering
- > Format Gantt charts and timeline views professionally
- > Export reports to PDF and other formats
- > Produce resource usage and earned value summaries

Final Projects and Assessment:

- **Assessment:** Project-based evaluation through real-world projects to assess practical skills and application without theory exams.
- **Tailored Curriculum:** Customized to industry standards, covering essential topics for professional development in relevant fields.
- **Hands-on Projects:** Real-world simulations and interactive tasks to build applicable skills and create professional portfolios.
- **Certification Prep:** Targeted review sessions, practice exercises, and strategies for achieving industry certifications.
- **Ongoing Support:** Access to recorded materials, forums, instructor guidance, and career assistance for long-term growth.

Muppuli Raja

One of great institute for REVIT BIM course. I completed my training with Mr Ahmed. He is one great trainer in this institute. He has very good knowledge for BIM Training. I completed my REVIT BIM training with orbit and it was very nice learning journey for me. And one of best thing is training center is very flexible for classes.

Arun

Best SolidWorks training in Dubai! The instructor made 3D modeling and assembly design easy to understand. The course covered all essential tools I need for product design and engineering work. Best training center for solidworks training. Best Training Center for Best Skills

Harshu CH

My experience at Orbit training center has been the best In every step I learn from there very clearly almost complete my course it's very interesting the trainer is the best professional and friendly ,and the rest of the team keep it up, thanks for supporting me Orbit and all staff...

Ranjan Axalan

I just finished my course in 3ds max. I learned a lot on how to create 3d model. Thank you for the experience and for the teaching method it help me to understand easily and grow my knowledge. I will use my learnings to my future company. Highly Recomanded!

Numan

I had good support from trainer Mr Ahmed and the other staff. They would schedule my BIM classes as per my convenience and would retake classes if I required. They always answer my calls when I need assistance. Not only that the trainer would go a mile a ahead by helping me with my work related issues like a true mentor.

Lelanie Fernandez

Overall, I highly recommend the Fusion 360 training at Orbit Center, especially with Ahmad as the instructor. This course has exceeded my expectations, and I am learning a lot. I would rate it 5 out of 5 stars!

Aman Bakhtiyar

I had a great learning experience at Orbit Training Center. The trainers are knowledgeable, supportive, and always ready to help. The clear and practical teaching methods really helped improve my skills and confidence. I highly recommend Orbit Training Center to anyone looking to learn AutoCAD, Revit, and other professional skills.

Sana Zahid -

I recently completed the online Digital Marketing course with Orbit Training Center, and it was a great experience! The lessons were clear, practical, and easy to follow. The trainers were knowledgeable and supportive throughout the course. I've learned a lot that I can apply to my work here in Belgium. Highly recommend Orbit Training Center to anyone looking to improve their digital marketing skills!

Cleavon Henderson

Orbit Training Center offers outstanding CAD classes that are easy to understand, even as a first-year mechanical engineering student. The instructors simplify complex concepts and use practical examples, making the learning process engaging and effective. Whether you're new to CAD or improving your skills, Orbit Training Center provides a supportive and enriching environment. Highly recommended!

Danish Khan

Just finished Primavera P6 training at Orbit Training Center and it was fantastic! The trainer made complex scheduling concepts easy to understand with real-world examples. Got hands-on experience with project planning, resource allocation, and progress tracking. The course was well-structured and I feel confident using Primavera P6 for my projects now. Great value and would definitely recommend to other project managers!
