

PROFESSIONAL CERTIFICATION

Revit Infrastructure Training

This course introduces Revit for infrastructure design including roads utilities and grading. Learn piping custom families topography and details. Create sections profiles and plans. For designers draftsmen and industry joiners. Cover BIM templates parameters and DM regulations. Gain proficiency for professional submissions and utility drawings.

About Orbit Training Center

Your Gateway to Professional Excellence in Dubai

Who We Are

Established in 2023, Orbit Training Center is a leading professional training provider in Dubai, offering 60+ professional certification courses across diverse fields, including engineering, IT, design, and languages.

Our Benefits

-  Industry recognized certifications
-  Convenient location in the heart of Dubai
-  Affordable fees with multiple payment plans
-  Lifetime post-training support

★Our Features

-  Hands-on learning with real-world projects
-  Expert trainers with industry experience
-  Flexible learning options to fit your schedule
-  State-of-the-art infrastructure & facilities

Our Mission

We deliver outstanding courses, expert teaching, strong career guidance, and placement support to help every student achieve their best results. We stay connected with alumni through networking events, lifelong learning, and ongoing mentorship. We run our operations with smart systems and data-driven decisions to create a smooth, exceptional experience for all.

Revit Infrastructure Course

Explore Revit for infrastructure grading and utility design.

Course Description

This course teaches Revit tools for infrastructure. Design piping grading and custom profiles. Develop road and utility drawings. Learn topography and specific families. Master templates settings and parameters. Ensure DM regulation compliance. Prepare for industry roles with hands on practice.

Duration

35-45

Hours of Training

Format

Classroom / Online

Flexible Option

Key Outcomes

- ✓ Study infrastructure plans
- ✓ Custom profile creation
- ✓ Grading and topography skills
- ✓ Piping tool mastery
- ✓ Detail drawings expertise
- ✓ BIM template settings
- ✓ DM regulation understanding

Target Audience

- Infrastructure designers and draftsmen
- Road bridge and utility professionals
- Professionals joining infrastructure BIM

Certification

- Certificate of Course Completion
- Industry Recognized Certification
- Trained by Certified Professionals

Prerequisites

- Basic civil or infrastructure design
- Interest in utility and grading
- No prior Revit knowledge required

Revit Infrastructure Course

Start with infrastructure basics and Revit modeling.

Intermediate

- Covers all Intermediate Levels
- Precise Geometry Creation
- Basic Parameters & Standards
- Understanding of Tools & Uses
- Intermediate Project Standard
- 1 Project at Completion

Duration
35 Hrs

Professional

- Covers all Professional Modules
- 16 Standard Professional Modules
- Learn with Industry Standard
- Professional Tools and Uses
- Multiple Professional Projects
- 3 Projects at Completion

Duration
40 Hrs

Advanced (Customized)

- Covers All Professional Modules
- 16+ Advance Professional Module
- Co-Ordination and Adv. Parameters
- Shop Drawings & As Built Drawings
- Govt. Standard and Submission
- 4 Projects in Different Categories

Duration
45 Hrs

Revit Infrastructure Course

Start with infrastructure basics and Revit modeling.

01 Introduction to Revit Infrastructure and BIM

- > Overview of BIM in infrastructure projects
- > Navigating Revit Infrastructure interface
- > Basic view controls and project browser
- > Setting up infrastructure project templates
- > Understanding civil vs architectural workflows

02 Project Setup and Shared Coordinates

- > Establishing project levels and grids
- > Setting shared coordinates and base points
- > Configuring project units and precision
- > Linking site survey and GIS data
- > Aligning with architectural models

03 Importing and Managing External Data

- > Import CAD DWG DXF files accurately
- > Link GIS shapefiles and point clouds
- > Manage external references and updates
- > Convert data to native Revit elements
- > Clean and optimize imported geometry

04 Site Modeling and Topography Tools

- > Create toposurfaces from contour data
- > Edit terrain with split surfaces subregions
- > Model building pads and grading groups
- > Analyze cut fill volumes and slopes
- > Generate contour labels and site plans

05 Road Design and Corridor Modeling

- > Create horizontal and vertical alignments
- > Develop road profiles and assemblies
- > Model corridors with subassemblies
- > Add intersections roundabouts and culverts
- > Generate road cross-sections and quantities

06 Bridge and Tunnel Modeling

- > Model bridge components girders decks abutments
- > Create tunnel alignments and profiles
- > Detail rebar and prestressing in bridges
- > Integrate bridges tunnels with road networks
- > Analyze bridge loading and deflection

Revit Infrastructure Course

Start with infrastructure basics and Revit modeling.

07 Utility Network Design and Piping

- > Model stormwater sanitary sewer networks
- > Place manholes catch basins and pipes
- > Create pressure pipe networks for water
- > Add fittings valves and appurtenances
- > Perform hydraulic analysis and sizing

08 Landscaping and Site Features

- > Place site components trees furniture lighting
- > Model retaining walls fences and railings
- > Create parking lots with striping curbs
- > Add pathways hardscapes and softscapes
- > Generate landscaping schedules quantities

09 Earthworks and Grading Optimization

- > Perform mass earthwork cut fill calculations
- > Create phased grading plans and profiles
- > Model stockpiles borrow pits and berms
- > Optimize grading for drainage and stability
- > Generate earthwork volume reports

10 Transportation Infrastructure Modeling

- > Model railways tracks and stations
- > Create highway interchanges ramps
- > Detail transit systems bus stops shelters
- > Integrate signaling and overhead lines
- > Analyze traffic flow and safety

11 Environmental and Sustainable Design

- > Model green infrastructure bioswales ponds
- > Incorporate sustainable drainage systems SUDS
- > Analyze environmental impact and erosion
- > Specify eco-friendly materials and vegetation
- > Prepare LEED compliance documentation

12 Coordination and Clash Detection

- > Link multidisciplinary models for coordination
- > Run interference checks on infrastructure
- > Resolve clashes with adaptive adjustments
- > Use coordination views and reports
- > Implement worksharing for team collaboration

Revit Infrastructure Course

Start with infrastructure basics and Revit modeling.

13 Documentation Detailing and Sheets

- > Create detailed plan section profile views
- > Add dimensions annotations and labels
- > Generate quantity schedules and BOMs
- > Set up sheets with title blocks legends
- > Export construction documents and DWGs

14 Analysis and Simulation Integration

- > Export to Civil 3D for advanced analysis
- > Perform basic hydraulic and traffic simulations
- > Integrate with InfraWorks for visualization
- > Analyze structural loads on bridges
- > Generate performance reports and metrics

15 Custom Families and Parametric Design

- > Create custom infrastructure family templates
- > Add parameters for adaptive components
- > Build parametric alignments and profiles
- > Test family behavior in project contexts
- > Organize infrastructure family libraries

16 Dubai-Specific Infrastructure Regulations

- > Apply Dubai Roads Transport Authority standards
- > Prepare models for DM permit submissions
- > Incorporate DEWA and Du coordination requirements
- > Generate IFC exports with required attributes
- > Document compliance with local codes

Final Projects and Assessment:

- **Assessment:** Project-based evaluation through real-world projects to assess practical skills and application without theory exams.
- **Tailored Curriculum:** Customized to industry standards, covering essential topics for professional development in relevant fields.
- **Hands-on Projects:** Real-world simulations and interactive tasks to build applicable skills and create professional portfolios.
- **Certification Prep:** Targeted review sessions, practice exercises, and strategies for achieving industry certifications.
- **Ongoing Support:** Access to recorded materials, forums, instructor guidance, and career assistance for long-term growth.

Muppuli Raja

One of great institute for REVIT BIM course. I completed my training with Mr Ahmed. He is one great trainer in this institute. He has very good knowledge for BIM Training. I completed my REVIT BIM training with orbit and it was very nice learning journey for me. And one of best thing is training center is very flexible for classes.

Arun

Best SolidWorks training in Dubai! The instructor made 3D modeling and assembly design easy to understand. The course covered all essential tools I need for product design and engineering work. Best training center for solidworks training. Best Training Center for Best Skills

Harshu CH

My experience at Orbit training center has been the best In every step I learn from there very clearly almost complete my course it's very interesting the trainer is the best professional and friendly ,and the rest of the team keep it up, thanks for supporting me Orbit and all staff...

Ranjan Axalan

I just finished my course in 3ds max. I learned a lot on how to create 3d model. Thank you for the experience and for the teaching method it help me to understand easily and grow my knowledge. I will use my learnings to my future company. Highly Recomanded!

Numan

I had good support from trainer Mr Ahmed and the other staff. They would schedule my BIM classes as per my convenience and would retake classes if I required. They always answer my calls when I need assistance. Not only that the trainer would go a mile a ahead by helping me with my work related issues like a true mentor.

Lelanie Fernandez

Overall, I highly recommend the Fusion 360 training at Orbit Center, especially with Ahmad as the instructor. This course has exceeded my expectations, and I am learning a lot. I would rate it 5 out of 5 stars!

Aman Bakhtiyar

I had a great learning experience at Orbit Training Center. The trainers are knowledgeable, supportive, and always ready to help. The clear and practical teaching methods really helped improve my skills and confidence. I highly recommend Orbit Training Center to anyone looking to learn AutoCAD, Revit, and other professional skills.

Sana Zahid -

I recently completed the online Digital Marketing course with Orbit Training Center, and it was a great experience! The lessons were clear, practical, and easy to follow. The trainers were knowledgeable and supportive throughout the course. I've learned a lot that I can apply to my work here in Belgium. Highly recommend Orbit Training Center to anyone looking to improve their digital marketing skills!

Cleavon Henderson

Orbit Training Center offers outstanding CAD classes that are easy to understand, even as a first-year mechanical engineering student. The instructors simplify complex concepts and use practical examples, making the learning process engaging and effective. Whether you're new to CAD or improving your skills, Orbit Training Center provides a supportive and enriching environment. Highly recommended!

Danish Khan

Just finished Primavera P6 training at Orbit Training Center and it was fantastic! The trainer made complex scheduling concepts easy to understand with real-world examples. Got hands-on experience with project planning, resource allocation, and progress tracking. The course was well-structured and I feel confident using Primavera P6 for my projects now. Great value and would definitely recommend to other project managers!

At Orbit Training Center, we offer a diverse range of professional courses designed to equip you with the latest industry skills and knowledge. Our comprehensive programs cover in-demand fields such as Interior Design, Computer Science, Graphic Design, Digital Marketing, Solar Energy, and specialized software training including STAAD Pro, Revit Architecture, Tekla Structures, and more. Each course is crafted by industry experts to provide hands-on learning, real-world applications, and certification preparation.
