

PROFESSIONAL CERTIFICATION

Tekla Structure (BIM) Training

The Tekla Structure Course teaches BIM for structural engineering. Participants learn 3D modeling detailing and fabrication management. Hands-on training covers steel and concrete structures drawing generation and collaboration tools to produce accurate constructible models for building projects.

About Orbit Training Center

Your Gateway to Professional Excellence in Dubai

Who We Are

Established in 2023, Orbit Training Center is a leading professional training provider in Dubai, offering 60+ professional certification courses across diverse fields, including engineering, IT, design, and languages.

Our Benefits

-  Industry recognized certifications
-  Convenient location in the heart of Dubai
-  Affordable fees with multiple payment plans
-  Lifetime post-training support

★Our Features

-  Hands-on learning with real-world projects
-  Expert trainers with industry experience
-  Flexible learning options to fit your schedule
-  State-of-the-art infrastructure & facilities

Our Mission

We deliver outstanding courses, expert teaching, strong career guidance, and placement support to help every student achieve their best results. We stay connected with alumni through networking events, lifelong learning, and ongoing mentorship. We run our operations with smart systems and data-driven decisions to create a smooth, exceptional experience for all.

Tekla Structure (BIM) Course

It is the tool to learn BIM modeling with Tekla Structures.

Course Description

This course provides in-depth training on Tekla Structures for BIM. Master creating 3D models generating shop drawings and managing changes. Practical projects focus on steel concrete and precast elements for efficient design fabrication and construction in structural engineering.

Duration

35-47

Hours of Training

Format

Classroom / Online

Flexible Option

Key Outcomes

- ✓ Master Tekla interface.
- ✓ Create 3D structural models.
- ✓ Generate fabrication drawings.
- ✓ Manage model changes.
- ✓ Collaborate in BIM.
- ✓ Optimize construction processes.
- ✓ Enhance project accuracy.

Target Audience

- Structure Designers in BIM.
- Draftsmen for modeling.
- Technicians in coordination.

Certification

- Certificate of Course Completion
- Industry Recognized Certification
- Trained by Certified Professionals

Prerequisites

- Basic engineering knowledge needed.
- Computer with Tekla installed.
- Interest in BIM processes.

Tekla Structure (BIM) Course

Start with Tekla basics and model creation.

Intermediate

- Covers all Intermediate Levels
- Precise Geometry Creation
- Basic Parameters & Standards
- Understanding of Tools & Uses
- Intermediate Project Standard
- 1 Project at Completion

Duration
35 Hrs

Professional

- Covers all Professional Modules
- 16 Standard Professional Modules
- Learn with Industry Standard
- Professional Tools and Uses
- Multiple Professional Projects
- 3 Projects at Completion

Duration
41 Hrs

Advanced (Customized)

- Covers All Professional Modules
- 16+ Advance Professional Module
- Co-Ordination and Adv. Parameters
- Shop Drawings & As Built Drawings
- Govt. Standard and Submission
- 4 Projects in Different Categories

Duration
47 Hrs

Tekla Structure (BIM) Course

Start with Tekla basics and model creation.

01 Introduction to Tekla Structures

- > Overview of Tekla Structures
- > Installation and Setup
- > User Interface and Navigation
- > Basic Terminology and Concepts
- > Project Workflow Overview

02 Project Setup

- > Creating and Managing Projects
- > Project Settings and Configurations
- > Template and Standard Settings
- > File Management and Backup
- > Importing External Data

03 Basic Modelling Techniques

- > Creating Grids and Levels
- > Basic Modelling Tools
- > Adding Columns Beams and Plates
- > Editing and Modifying Elements
- > Using Reference Models

04 Advanced Modelling Techniques

- > Complex Shapes and Custom Components
- > Using Macros and Plugins
- > Modelling Stairs Ladders and Railings
- > Creating and Using Custom Parts
- > Parametric Modeling

05 Connections and Joints

- > Introduction to Connections
- > Standard and Custom Connections
- > Modelling Steel and Concrete Joints
- > Connection Design and Analysis
- > Connection Optimization

06 Reinforcement Detailing

- > Introduction to Reinforcement
- > Modelling Rebars Meshes and Cages
- > Reinforcement Tools and Techniques
- > Detailing Concrete Structures
- > Reinforcement Customization

Tekla Structure (BIM) Course

Start with Tekla basics and model creation.

07 Drawing Production

- > Creating General Arrangement Drawings
- > Detail Drawings and Shop Drawings
- > Drawing Layouts and Templates
- > Annotating and Dimensioning Drawings
- > Exporting Drawings

08 Reports and Schedules

- > Generating Material Lists and Reports
- > Customizing Report Templates
- > Creating and Managing Schedules
- > Exporting and Printing Reports
- > Schedule Customization

09 Collaboration and Coordination

- > Working with Multiple Users
- > Importing and Exporting Models
- > Clash Detection and Resolution
- > Using BIM Collaboration Tools
- > Model Sharing Best Practices

10 Customization and Automation

- > Customizing the User Interface
- > Creating Custom Components and Profiles
- > Using Tekla Open API for Automation
- > Scripting with Tekla Structures
- > Advanced Scripting Techniques

11 Advanced Steel Modelling

- > Modelling complex steel framing systems
- > Optimizing steel member sizes and connections
- > Automated steel member selection and sizing
- > Integration with steel design software
- > Handling irregular or non-standard steel elements

12 Construction Sequencing and Planning

- > Modelling Construction Sequences
- > Simulation and Scheduling
- > Construction Planning Tools
- > Linking with Project Management Software
- > 4D Simulation

Tekla Structure (BIM) Course

Start with Tekla basics and model creation.

13 Steel Detailing

- > Detailed Steel Modelling Techniques
- > Advanced Steel Connections
- > Creating Steel Shop Drawings
- > Fabrication and Erection Planning
- > Steel Detailing Best Practices

14 Concrete Detailing

- > Detailed Concrete Modelling Techniques
- > Advanced Reinforcement Detailing
- > Creating Concrete Shop Drawings
- > Concrete Formwork Detailing
- > Precast Concrete Modeling

15 Advanced Topics and Future Trends

- > Advanced Tekla Features and Tools
- > Sustainability and Green Building
- > Future Trends in Structural Design and Detailing
- > BIM Integration
- > AI in Structural Design

16 Steel Fabrication and Erection

- > Generating detailed steel shop drawings
- > Detailing weld specifications and details
- > Creating steel erection drawings and plans
- > Integrating with steel fabrication processes
- > Quality Control in Fabrication

Final Projects and Assessment:

- **Assessment:** Project-based evaluation through real-world projects to assess practical skills and application without theory exams.
- **Tailored Curriculum:** Customized to industry standards, covering essential topics for professional development in relevant fields.
- **Hands-on Projects:** Real-world simulations and interactive tasks to build applicable skills and create professional portfolios.
- **Certification Prep:** Targeted review sessions, practice exercises, and strategies for achieving industry certifications.
- **Ongoing Support:** Access to recorded materials, forums, instructor guidance, and career assistance for long-term growth.

Muppuli Raja

One of great institute for REVIT BIM course. I completed my training with Mr Ahmed. He is one great trainer in this institute. He has very good knowledge for BIM Training. I completed my REVIT BIM training with orbit and it was very nice learning journey for me. And one of best thing is training center is very flexible for classes.

Arun

Best SolidWorks training in Dubai! The instructor made 3D modeling and assembly design easy to understand. The course covered all essential tools I need for product design and engineering work. Best training center for solidworks training. Best Training Center for Best Skills

Harshu CH

My experience at Orbit training center has been the best In every step I learn from there very clearly almost complete my course it's very interesting the trainer is the best professional and friendly ,and the rest of the team keep it up, thanks for supporting me Orbit and all staff...

Ranjan Axalan

I just finished my course in 3ds max. I learned a lot on how to create 3d model. Thank you for the experience and for the teaching method it help me to understand easily and grow my knowledge. I will use my learnings to my future company. Highly Recomanded!

Numan

I had good support from trainer Mr Ahmed and the other staff. They would schedule my BIM classes as per my convenience and would retake classes if I required. They always answer my calls when I need assistance. Not only that the trainer would go a mile a ahead by helping me with my work related issues like a true mentor.

Lelanie Fernandez

Overall, I highly recommend the Fusion 360 training at Orbit Center, especially with Ahmad as the instructor. This course has exceeded my expectations, and I am learning a lot. I would rate it 5 out of 5 stars!

Aman Bakhtiyar

I had a great learning experience at Orbit Training Center. The trainers are knowledgeable, supportive, and always ready to help. The clear and practical teaching methods really helped improve my skills and confidence. I highly recommend Orbit Training Center to anyone looking to learn AutoCAD, Revit, and other professional skills.

Sana Zahid -

I recently completed the online Digital Marketing course with Orbit Training Center, and it was a great experience! The lessons were clear, practical, and easy to follow. The trainers were knowledgeable and supportive throughout the course. I've learned a lot that I can apply to my work here in Belgium. Highly recommend Orbit Training Center to anyone looking to improve their digital marketing skills!

Cleavon Henderson

Orbit Training Center offers outstanding CAD classes that are easy to understand, even as a first-year mechanical engineering student. The instructors simplify complex concepts and use practical examples, making the learning process engaging and effective. Whether you're new to CAD or improving your skills, Orbit Training Center provides a supportive and enriching environment. Highly recommended!

Danish Khan

Just finished Primavera P6 training at Orbit Training Center and it was fantastic! The trainer made complex scheduling concepts easy to understand with real-world examples. Got hands-on experience with project planning, resource allocation, and progress tracking. The course was well-structured and I feel confident using Primavera P6 for my projects now. Great value and would definitely recommend to other project managers!

At Orbit Training Center, we offer a diverse range of professional courses designed to equip you with the latest industry skills and knowledge. Our comprehensive programs cover in-demand fields such as Interior Design, Computer Science, Graphic Design, Digital Marketing, Solar Energy, and specialized software training including STAAD Pro, Revit Architecture, Tekla Structures, and more. Each course is crafted by industry experts to provide hands-on learning, real-world applications, and certification preparation.
