About Orbit Training Center

Your Gateway to Professional Excellence in Dubai

Who We Are

Established in 2023, Orbit Training Center is a leading professional training provider in Dubai, offering 60+ professional certification courses across diverse fields, including engineering, IT, design, and languages.

Our Benefits

-  Industry recognized certifications
-  Convenient location in the heart of Dubai
-  Affordable fees with multiple payment plans
-  Lifetime post-training support

★Our Features

-  Hands-on learning with real-world projects
-  Expert trainers with industry experience
-  Flexible learning options to fit your schedule
-  State-of-the-art infrastructure & facilities

Our Mission

We deliver outstanding courses, expert teaching, strong career guidance, and placement support to help every student achieve their best results. We stay connected with alumni through networking events, lifelong learning, and ongoing mentorship. We run our operations with smart systems and data-driven decisions to create a smooth, exceptional experience for all.

XD Course

Design and prototype user interfaces in Adobe XD.

Course Description

Adobe XD course teaches UI design components prototyping interactions and collaboration tools to create user-centered designs for apps and websites.

Duration

10-15

Hours of Training

Format

Classroom / Online

Flexible Option

Key Outcomes

- ✓ Create artboards and layouts quickly
- ✓ Design responsive components and styles
- ✓ Build interactive prototypes effectively
- ✓ Add animations and transitions
- ✓ Share prototypes for feedback
- ✓ Collaborate in real-time with teams
- ✓ Export assets for development

Target Audience

- UI/UX designers and product teams
- Web and app developers
- Beginner interface designers

Certification

- Certificate of Course Completion
- Industry Recognized Certification
- Trained by Certified Professionals

Prerequisites

- Basic design concept knowledge
- Familiarity with Adobe tools
- Understanding user flows

XD Course

Start prototyping user experiences with XD basics.

Intermediate

- › Covers all Intermediate Levels
- › Precise Design Creation
- › Build Your Own Portfolio
- › Understanding of Tools & Uses
- › Intermediate Project Standard
- › 1 Project at Completion

Duration
10 Hrs

Professional

- › Covers all Professional Modules
- › 16 Standard Professional Modules
- › Learn Professional Design
- › Build a Professional Portfolio
- › Multiple Professional Projects
- › 3 Projects at Completion

Duration
15 Hrs

Career Opportunities

- Graphic Designer: logos and branding
- Video Editor: TikTok, Reels, YouTube
- Motion Graphics: animated videos and ads
- UI/UX Designer: app and web interfaces
- Social Media Creator: graphics + short videos
- Brand Identity: logos and style guides
- Multimedia Designer: graphics with animation
- Freelance Creative: remote design and editing
- Art Director: leading visual projects
- Digital Marketer: ads and promo videos

Ready for digital, social, branding,
and motion roles in fast-growing
media world.

XD Course

Start prototyping user experiences with XD basics.

01 Navigating the Adobe XD Interface and Workspace

- > Customize artboards panels and property inspectors
- > Utilize layers assets and symbols panels
- > Manage prototype and design mode switching
- > Set preferences for UI UX workflows
- > Explore keyboard shortcuts for efficiency

02 Creating and Managing Artboards

- > Define artboard sizes for various devices
- > Duplicate and arrange artboards logically
- > Apply responsive resize for adaptive layouts
- > Use grids and guides for alignment
- > Save artboard templates for reuse

03 Drawing Shapes and Vector Graphics

- > Draw rectangles ellipses and polygons
- > Use pen tool for custom paths
- > Apply boolean operations for shapes
- > Edit paths with corner widgets
- > Convert shapes to paths for editing

04 Working with Text and Typography

- > Add and format text areas
- > Apply character and paragraph styles
- > Create text on paths and shapes
- > Use repeat grid for lists
- > Adjust line spacing and alignment

05 Importing and Managing Assets

- > Import images SVGs from CC libraries
- > Place and mask images in shapes
- > Organize colors character styles assets
- > Link assets for updates across files
- > Export assets for development handoff

06 Components and Symbols for Reusability

- > Create main components and instances
- > Override instance properties selectively
- > Swap symbols for design variations
- > Use states for interactive hover effects
- > Organize component libraries efficiently

XD Course

Start prototyping user experiences with XD basics.

07 Responsive Design and Layouts

- > Apply auto-animate for transitions
- > Use stacks for content organization
- > Implement padding and spacing controls
- > Create overlay and fixed elements
- > Test responsive behaviors on devices

08 Prototyping Interactions and Animations

- > Link artboards with prototype wires
- > Apply transitions drag and time triggers
- > Create overlays for modals menus
- > Add device frames for preview
- > Share prototypes for feedback

09 Advanced Prototyping with States

- > Define default hover active states
- > Use component states in prototypes
- > Apply state transitions with auto-animate
- > Create micro-interactions for elements
- > Test multi-state interactions thoroughly

10 Voice Prototyping and Accessibility

- > Add voice triggers and speech playback
- > Implement accessibility features alt text
- > Define reading order for screen readers
- > Test with accessibility checkers
- > Export accessible PDF prototypes

11 Coediting and Collaboration Tools

- > Invite collaborators for real-time coediting
- > Use comments for feedback resolution
- > Manage version history and restores
- > Share design specs for developers
- > Integrate with CC libraries teams

12 Design Systems and Libraries Management

- > Build scalable design system components
- > Organize libraries for team sharing
- > Publish and subscribe to libraries
- > Update linked components across files
- > Document system guidelines in XD

XD Course

Start prototyping user experiences with XD basics.

13 Plugins and Integration Extensions

- > Install plugins from XD plugin manager
- > Use plugins for data population UI kits
- > Integrate with Jira Slack for workflow
- > Apply automation plugins for efficiency
- > Create custom plugins if needed

14 Advanced Animation and Micro-Interactions

- > Use timed animations for sequences
- > Apply easing functions for natural motion
- > Create parallax scrolling effects
- > Animate masks and path morphing
- > Combine with Lottie for export

15 Preparing for Handoff and Export

- > Generate design specs measurements
- > Export assets in various formats
- > Create developer handoff packages
- > Use Zeplin integration for specs
- > Prepare interactive prototypes for testing

16 Professional UX UI Project Workflows

- > Design mobile app interfaces efficiently
- > Create responsive web layouts
- > Develop wireframes to high-fidelity
- > Conduct user testing with prototypes
- > Iterate designs based on feedback

Final Projects and Assessment:

- **Assessment:** Project-based evaluation through real-world projects to assess practical skills and application without theory exams.
- **Tailored Curriculum:** Customized to industry standards, covering essential topics for professional development in relevant fields.
- **Hands-on Projects:** Real-world simulations and interactive tasks to build applicable skills and create professional portfolios.
- **Certification Prep:** Targeted review sessions, practice exercises, and strategies for achieving industry certifications.
- **Ongoing Support:** Access to recorded materials, forums, instructor guidance, and career assistance for long-term growth.

Muppuli Raja

“ One of great institute for REVIT BIM course. I completed my training with Mr Ahmed. He is one great trainer in this institute. He has very good knowledge for BIM Training. I completed my REVIT BIM training with orbit and it was very nice learning journey for me. And one of best thing is training center is very flexible for classes.

Arun

“ Best SolidWorks training in Dubai! The instructor made 3D modeling and assembly design easy to understand. The course covered all essential tools I need for product design and engineering work. Best training center for solidworks training. Best Training Center for Best Skills

Harshu CH

“ My experience at Orbit training center has been the best In every step I learn from there very clearly almost complete my course it's very interesting the trainer is the best professional and friendly ,and the rest of the team keep it up, thanks for supporting me Orbit and all staff...

Ranjan Axalan

“ I just finished my course in 3ds max. I learned a lot on how to create 3d model. Thank you for the experience and for the teaching method it help me to understand easily and grow my knowledge. I will use my learnings to my future company. Highly Recomanded!

Numan

“ I had good support from trainer Mr Ahmed and the other staff. They would schedule my BIM classes as per my convenience and would retake classes if I required. They always answer my calls when I need assistance. Not only that the trainer would go a mile a ahead by helping me with my work related issues like a true mentor.

Lelanie Fernandez

“ Overall, I highly recommend the Fusion 360 training at Orbit Center, especially with Ahmad as the instructor. This course has exceeded my expectations, and I am learning a lot. I would rate it 5 out of 5 stars!

Aman Bakhtiyar

I had a great learning experience at Orbit Training Center. The trainers are knowledgeable, supportive, and always ready to help. The clear and practical teaching methods really helped improve my skills and confidence. I highly recommend Orbit Training Center to anyone looking to learn AutoCAD, Revit, and other professional skills.

Sana Zahid -

I recently completed the online Digital Marketing course with Orbit Training Center, and it was a great experience! The lessons were clear, practical, and easy to follow. The trainers were knowledgeable and supportive throughout the course. I've learned a lot that I can apply to my work here in Belgium. Highly recommend Orbit Training Center to anyone looking to improve their digital marketing skills!

Cleavon Henderson

Orbit Training Center offers outstanding CAD classes that are easy to understand, even as a first-year mechanical engineering student. The instructors simplify complex concepts and use practical examples, making the learning process engaging and effective. Whether you're new to CAD or improving your skills, Orbit Training Center provides a supportive and enriching environment. Highly recommended!

Danish Khan

Just finished Primavera P6 training at Orbit Training Center and it was fantastic! The trainer made complex scheduling concepts easy to understand with real-world examples. Got hands-on experience with project planning, resource allocation, and progress tracking. The course was well-structured and I feel confident using Primavera P6 for my projects now. Great value and would definitely recommend to other project managers!
