About Orbit Training Center

Your Gateway to Professional Excellence in Dubai

Who We Are

Established in 2023, Orbit Training Center is a leading professional training provider in Dubai, offering 60+ professional certification courses across diverse fields, including engineering, IT, design, and languages.

Our Benefits

-  Industry recognized certifications
-  Convenient location in the heart of Dubai
-  Affordable fees with multiple payment plans
-  Lifetime post-training support

★Our Features

-  Hands-on learning with real-world projects
-  Expert trainers with industry experience
-  Flexible learning options to fit your schedule
-  State-of-the-art infrastructure & facilities

Our Mission

We deliver outstanding courses, expert teaching, strong career guidance, and placement support to help every student achieve their best results. We stay connected with alumni through networking events, lifelong learning, and ongoing mentorship. We run our operations with smart systems and data-driven decisions to create a smooth, exceptional experience for all.

- > Loops: for while and do-while with break and continue

06 JavaScript DOM and Interactivity

- > Selecting and manipulating DOM elements
- > Changing styles classes and attributes with JavaScript
- > Handling events: click input submit and keyboard events
- > Form validation with JavaScript
- > Building interactive UI elements: toggles dropdowns and modals

Full-Stack Development with PHP

Start your full-stack journey with structured modules covering frontend PHP Laravel MySQL and complete project deployment from basics to advanced level.

07 JavaScript Arrays and Objects

- › Creating and accessing arrays and common array methods
- › Looping through arrays with forEach map and filter
- › Creating and accessing objects with key-value pairs
- › Nested objects and arrays for structured data
- › Introduction to JSON: parsing and stringifying data

08 Introduction to PHP

- › What is PHP and how it works with a web server
- › Setting up a local environment with XAMPP or WAMP
- › PHP syntax: variables data types and comments
- › Outputting data with echo and print
- › Embedding PHP in HTML pages

09 PHP Control Structures and Functions

- › Conditional statements: if else elseif and switch in PHP
- › Loops in PHP: for foreach while and do-while
- › Defining and calling functions with parameters and return values
- › Variable scope: local global and static variables
- › PHP built-in functions for strings numbers and arrays

10 PHP Forms and User Input

- › Handling HTML form submissions with GET and POST methods
- › Accessing form data with \$_GET and \$_POST superglobals
- › Validating and sanitizing user input in PHP
- › Displaying form data and error messages back to the user
- › Redirecting users after form submission with header()

11 SQL and MySQL Fundamentals

- › Introduction to relational databases and SQL
- › Creating databases and tables with CREATE DATABASE and CREATE TABLE
- › Inserting and retrieving data with INSERT INTO and SELECT
- › Filtering sorting and limiting results with WHERE ORDER BY and LIMIT
- › Updating and deleting records with UPDATE and DELETE

12 PHP and MySQL Integration

- › Connecting PHP to a MySQL database using MySQLi
- › Executing SELECT queries and fetching results in PHP
- › Inserting user-submitted form data into a database
- › Updating and deleting database records through PHP
- › Displaying dynamic database content in HTML pages

Full-Stack Development with PHP

Start your full-stack journey with structured modules covering frontend PHP Laravel MySQL and complete project deployment from basics to advanced level.

13 PHP Sessions and Cookies

- > What are sessions and cookies and when to use each
- > Starting a session and storing data with `$_SESSION`
- > Using sessions to build a simple login and logout system
- > Setting reading and deleting cookies with `setcookie()` and `$_COOKIE`
- > Protecting pages by checking session authentication

14 PHP Object-Oriented Programming Basics

- > Introduction to OOP: classes objects properties and methods
- > Creating a class and instantiating objects in PHP
- > Constructors and destructors in PHP classes
- > Inheritance: extending a class and overriding methods
- > Visibility modifiers: public private and protected

15 Introduction to Laravel

- > What is Laravel and benefits of using a PHP framework
- > Installing Laravel with Composer and setting up the project
- > Understanding MVC architecture: Models Views and Controllers
- > Defining routes in Laravel and passing data to views with Blade
- > Connecting Laravel to a MySQL database and running basic Eloquent queries

16 Full Stack Project: PHP Web Application

- > Planning the project structure and database schema
- > Building the frontend with HTML CSS Bootstrap and JavaScript
- > Developing the backend with PHP and MySQL
- > Implementing user registration login and session management
- > Connecting frontend forms to backend PHP scripts and deploying on a local server

Final Projects and Assessment:

- **Assessment:** Project-based evaluation through real-world projects to assess practical skills and application without theory exams.
- **Tailored Curriculum:** Customized to industry standards, covering essential topics for professional development in relevant fields.
- **Hands-on Projects:** Real-world simulations and interactive tasks to build applicable skills and create professional portfolios.
- **Certification Prep:** Targeted review sessions, practice exercises, and strategies for achieving industry certifications.
- **Ongoing Support:** Access to recorded materials, forums, instructor guidance, and career assistance for long-term growth.

Muppuli Raja

One of great institute for REVIT BIM course. I completed my training with Mr Ahmed. He is one great trainer in this institute. He has very good knowledge for BIM Training. I completed my REVIT BIM training with orbit and it was very nice learning journey for me. And one of best thing is training center is very flexible for classes.

Arun

Best SolidWorks training in Dubai! The instructor made 3D modeling and assembly design easy to understand. The course covered all essential tools I need for product design and engineering work. Best training center for solidworks training. Best Training Center for Best Skills

Harshu CH

My experience at Orbit training center has been the best In every step I learn from there very clearly almost complete my course it's very interesting the trainer is the best professional and friendly ,and the rest of the team keep it up, thanks for supporting me Orbit and all staff...

Ranjan Axalan

I just finished my course in 3ds max. I learned a lot on how to create 3d model. Thank you for the experience and for the teaching method it help me to understand easily and grow my knowledge. I will use my learnings to my future company. Highly Recomanded!

Numan

I had good support from trainer Mr Ahmed and the other staff. They would schedule my BIM classes as per my convenience and would retake classes if I required. They always answer my calls when I need assistance. Not only that the trainer would go a mile a ahead by helping me with my work related issues like a true mentor.

Lelanie Fernandez

Overall, I highly recommend the Fusion 360 training at Orbit Center, especially with Ahmad as the instructor. This course has exceeded my expectations, and I am learning a lot. I would rate it 5 out of 5 stars!

Aman Bakhtiyar

I had a great learning experience at Orbit Training Center. The trainers are knowledgeable, supportive, and always ready to help. The clear and practical teaching methods really helped improve my skills and confidence. I highly recommend Orbit Training Center to anyone looking to learn AutoCAD, Revit, and other professional skills.

Sana Zahid -

I recently completed the online Digital Marketing course with Orbit Training Center, and it was a great experience! The lessons were clear, practical, and easy to follow. The trainers were knowledgeable and supportive throughout the course. I've learned a lot that I can apply to my work here in Belgium. Highly recommend Orbit Training Center to anyone looking to improve their digital marketing skills!

Cleavon Henderson

Orbit Training Center offers outstanding CAD classes that are easy to understand, even as a first-year mechanical engineering student. The instructors simplify complex concepts and use practical examples, making the learning process engaging and effective. Whether you're new to CAD or improving your skills, Orbit Training Center provides a supportive and enriching environment. Highly recommended!

Danish Khan

Just finished Primavera P6 training at Orbit Training Center and it was fantastic! The trainer made complex scheduling concepts easy to understand with real-world examples. Got hands-on experience with project planning, resource allocation, and progress tracking. The course was well-structured and I feel confident using Primavera P6 for my projects now. Great value and would definitely recommend to other project managers!
