About Orbit Training Center

Your Gateway to Professional Excellence in Dubai

Who We Are

Established in 2023, Orbit Training Center is a leading professional training provider in Dubai, offering 60+ professional certification courses across diverse fields, including engineering, IT, design, and languages.

Our Benefits

-  Industry recognized certifications
-  Convenient location in the heart of Dubai
-  Affordable fees with multiple payment plans
-  Lifetime post-training support

★Our Features

-  Hands-on learning with real-world projects
-  Expert trainers with industry experience
-  Flexible learning options to fit your schedule
-  State-of-the-art infrastructure & facilities

Our Mission

We deliver outstanding courses, expert teaching, strong career guidance, and placement support to help every student achieve their best results. We stay connected with alumni through networking events, lifelong learning, and ongoing mentorship. We run our operations with smart systems and data-driven decisions to create a smooth, exceptional experience for all.

Python Flask Web Development

Build powerful web apps using Python and Flask.

Course Description

Start from HTML CSS JavaScript and Bootstrap, build your Python skills, then master Flask to create dynamic database-driven web apps with routing templates forms authentication and live deployment.

Duration

60

Hours of Training

Format

Classroom / Online

Flexible Option

Key Outcomes

- ✓ Set up Flask projects with virtual environments
- ✓ Create Full Web apps from scratch
- ✓ Build views URLs and dynamic templates
- ✓ Edit the Frontend layout and backend functions
- ✓ Develop REST APIs using Flask Framework
- ✓ Handle forms static files and media uploads
- ✓ Deploy Flask applications to live servers

Target Audience

- Aspiring backend developers building web skills
- Python programmers entering web development
- Students and professionals creating scalable apps

Certification

- Certificate of Course Completion
- Industry Recognized Certification
- Trained by Certified Professionals

Prerequisites

- Basic knowledge of Python programming
- Understanding of web concepts and HTTP
- Familiarity with databases and SQL

Python Flask Web Development

Learn web development from scratch with Python and Flask — covering frontend basics through to backend databases authentication and real-world deployment.

01 HTML Fundamentals

- > HTML5 document structure and DOCTYPE declaration
- > Headings paragraphs lists and text formatting tags
- > Links images and media embedding in HTML
- > Tables and forms with input elements in HTML
- > Semantic HTML elements (header nav section article footer)

02 Advanced HTML

- > HTML form elements (input types checkboxes radio buttons and dropdowns)
- > HTML5 audio and video embedding
- > iframes and embedding external content
- > HTML attributes and global attributes
- > Accessibility best practices and ARIA roles in HTML

03 CSS Fundamentals

- > CSS syntax selectors and specificity rules
- > Box model margin padding border and outline
- > Colors backgrounds gradients and opacity
- > Typography font families font sizes and text styling
- > CSS units (px em rem % and vh/vw)

04 CSS Layout and Positioning

- > CSS Flexbox for alignment and layout
- > CSS Grid for two-dimensional page structure
- > CSS positioning (static relative absolute fixed and sticky)
- > Z-index and stacking context
- > CSS pseudo-classes and pseudo-elements

05 Advanced CSS

- > CSS transitions and basic animations
- > CSS variables (custom properties) and reusability
- > Responsive design with media queries and breakpoints
- > CSS specificity conflicts and the cascade
- > Organizing and structuring CSS files for larger projects

06 JavaScript Fundamentals

- > Introduction to JavaScript and how it runs in the browser
- > Variables (var let and const) and data types
- > Operators conditionals and comparison expressions
- > Loops (for while and for-of) and iteration
- > Functions declarations expressions and arrow functions

Python Flask Web Development

Learn web development from scratch with Python and Flask — covering frontend basics through to backend databases authentication and real-world deployment.

07 JavaScript DOM and Events

- > Selecting and manipulating DOM elements
- > Handling events (click submit keypress and more)
- > Dynamically creating and removing HTML elements
- > Form validation using JavaScript
- > Introduction to ES6+ features (template literals destructuring and spread)

08 Bootstrap Fundamentals

- > Introduction to Bootstrap and setting up via CDN
- > Bootstrap grid system (containers rows and columns)
- > Bootstrap typography buttons and utility classes
- > Bootstrap navigation bar and responsive menu
- > Bootstrap cards alerts modals and badges

09 Bootstrap Advanced Components

- > Bootstrap forms and form validation styles
- > Bootstrap tables and responsive table layout
- > Bootstrap carousel accordion and tabs
- > Customizing Bootstrap with utility classes and overrides
- > Building a complete responsive webpage with Bootstrap

10 Python Fundamentals

- > Introduction to Python and setting up the development environment
- > Python variables data types and type conversion
- > Conditional statements (if elif and else) and logical operators
- > Loops (for and while) and range function
- > Functions arguments return values and scope

11 Python Intermediate

- > Lists tuples sets and dictionaries
- > String methods and string formatting
- > File handling (reading and writing files)
- > Exception handling with try except and finally
- > Modules and packages and importing libraries

12 Introduction to Flask

- > What is Flask and how it compares to other Python web frameworks
- > Installing Flask and setting up a virtual environment
- > Creating your first Flask application and running the development server
- > Understanding the Flask application structure and file organization
- > Flask configuration and environment variables

Python Flask Web Development

Learn web development from scratch with Python and Flask — covering frontend basics through to backend databases authentication and real-world deployment.

13 Flask Routing and Templates

- > Defining routes and URL patterns with `@app.route`
- > Passing dynamic variables through URL parameters
- > Introduction to Jinja2 templating engine
- > Rendering HTML templates with `render_template`
- > Template inheritance using base templates and blocks

14 Flask Forms and User Input

- > Handling HTML form submissions with GET and POST methods
- > Accessing form data using `request.form` and `request.args`
- > Building and rendering forms in Jinja2 templates
- > Flash messages for user feedback and notifications
- > File uploads and handling multipart form data in Flask

15 Flask and Databases

- > Introduction to databases and SQLite for Flask projects
- > Setting up Flask-SQLAlchemy and defining database models
- > Performing CRUD operations (Create Read Update and Delete)
- > Using database relationships (one-to-many) in SQLAlchemy
- > Database migrations and managing schema changes

16 Flask User Authentication and Deployment

- > Implementing user registration and login with Flask-Login
- > Password hashing with Werkzeug security
- > Protecting routes with login required decorator
- > Session management and user logout
- > Deploying a Flask application to a live server (PythonAnywhere or Render)

Muppuli Raja

One of great institute for REVIT BIM course. I completed my training with Mr Ahmed. He is one great trainer in this institute. He has very good knowledge for BIM Training. I completed my REVIT BIM training with orbit and it was very nice learning journey for me. And one of best thing is training center is very flexible for classes.

Arun

Best SolidWorks training in Dubai! The instructor made 3D modeling and assembly design easy to understand. The course covered all essential tools I need for product design and engineering work. Best training center for solidworks training. Best Training Center for Best Skills

Harshu CH

My experience at Orbit training center has been the best In every step I learn from there very clearly almost complete my course it's very interesting the trainer is the best professional and friendly ,and the rest of the team keep it up, thanks for supporting me Orbit and all staff...

Ranjan Axalan

I just finished my course in 3ds max. I learned a lot on how to create 3d model. Thank you for the experience and for the teaching method it help me to understand easily and grow my knowledge. I will use my learnings to my future company. Highly Recomanded!

Numan

I had good support from trainer Mr Ahmed and the other staff. They would schedule my BIM classes as per my convenience and would retake classes if I required. They always answer my calls when I need assistance. Not only that the trainer would go a mile a ahead by helping me with my work related issues like a true mentor.

Lelanie Fernandez

Overall, I highly recommend the Fusion 360 training at Orbit Center, especially with Ahmad as the instructor. This course has exceeded my expectations, and I am learning a lot. I would rate it 5 out of 5 stars!

Aman Bakhtiyar

I had a great learning experience at Orbit Training Center. The trainers are knowledgeable, supportive, and always ready to help. The clear and practical teaching methods really helped improve my skills and confidence. I highly recommend Orbit Training Center to anyone looking to learn AutoCAD, Revit, and other professional skills.

Sana Zahid -

I recently completed the online Digital Marketing course with Orbit Training Center, and it was a great experience! The lessons were clear, practical, and easy to follow. The trainers were knowledgeable and supportive throughout the course. I've learned a lot that I can apply to my work here in Belgium. Highly recommend Orbit Training Center to anyone looking to improve their digital marketing skills!

Cleavon Henderson

Orbit Training Center offers outstanding CAD classes that are easy to understand, even as a first-year mechanical engineering student. The instructors simplify complex concepts and use practical examples, making the learning process engaging and effective. Whether you're new to CAD or improving your skills, Orbit Training Center provides a supportive and enriching environment. Highly recommended!

Danish Khan

Just finished Primavera P6 training at Orbit Training Center and it was fantastic! The trainer made complex scheduling concepts easy to understand with real-world examples. Got hands-on experience with project planning, resource allocation, and progress tracking. The course was well-structured and I feel confident using Primavera P6 for my projects now. Great value and would definitely recommend to other project managers!
